Subject: Label Revisions per PR Notice 96-6
Happy Jack DD-33 Flea and Tick Spray For Dogs and Cats
EPA Reg. No. 2781-41
Your Letter Submitted February 26, 1999

Dear Mr. Exum:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

- 1) Please place your signal word "**CAUTION**" in bold, all caps directly below the words "Hazards to Humans and Domestic Animals".
- 2) If your product has certain precautions or incidents associated with it, please follow your "USE ONLY ON DOGS AND CATS" statement with the specific breeds that your product should not be used on: "**Do not use on...**(specific breed)"

- 3) In your "Hazards to Humans and Domestic Animals" statement, please add the word "medicated" to the sentence "Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals."
- 4) Please include your complete address (including the street) on the label. Additionally, please provide your company telephone number or number of Animal Poison Control Center that consumers may call for questions or in the event of an emergency.
- 5) Please delete the statement "Repeat as needed" from your Directions for Use. Please state the minimum allowable interval between applications. This should be based on your efficacy data.

In response to your May 12, 1998 letter your request for a waiver of efficacy data is denied. Although we agree that this type of mange mite is not of public health significance, that does not justify a waiver of efficacy data. A registrant is required to have appropriate efficacy data to support all claims on the label. If the pest is of public health significance then the data must be submitted and reviewed as a prerequisite to approval. As stated in our last letter our records do not indicate this type of product is registered for control of sarcoptic mange mites.

We regret that we did not respond to your final printed label submission and are thankful that you reminded us. By looking at your label one final time we were able to clear up remaining inconsistencies. If you have any questions regarding this action, please contact Tracy Keigwin of my team at (703) 305-6605.

Sincerely,
Tracy Lynn Keigwin

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
HOLD CONTAINER UPRIGHT, SHAKE WELL BEFORE USING.
This product will kill fleas up to 14 days on dogs and cats and will kill ticks for 4 days on dogs and 9 days on cats. Spray animal from a distance of 8-12 inches. Start spraying at the tail, moving the dispenser rapidly and making sure the animal's entire body is covered, including legs and under the body. Fluff the hair as you spray so the spray will penetrate to the skin. The spray should wet the ticks thoroughly. Repeat as needed.
For cats apply at the rate of 1 second per pound of body weight. For dogs apply at the rate of 2 seconds per pound of body weight for thin or short-haired dogs and up to 6 seconds per pound of body weight for heavy or long-haired dogs. For information call 1-800-326-5225.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Do not spray in pet's eyes, face or on genitals. Do not use on puppies or kittens under 12 weeks of age. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic animals. Do not apply directly to any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

FIRST AID

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear.
IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.
IF ON SKIN OR CLOTHING: Remove contaminated clothing and wash before re-use. Wash skin with soap and warm water. Get medical attention if irritation persists.
IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

STORAGE AND DISPOSAL

STORAGE: Store in cool dry area away from heat or open flame.
DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash. Do not reuse empty container.
