- Add NPDES statement to the Environmental Hazard section on page 2 because use creates a lot of effluent.
- Under "Application for Citrus", change "50 lbs" to "50 lb". Also, provide application method for each of the three types. For example, replace each "apply" with "apply by spray, dip, or drench" or any other correct method.
- Under "Application for Apples and Pears", within "For aqueous application" insert a "comma" after "an aqueous spray".
- Within the "Storage and Disposal" box insert "Pesticide" before the subheading "Storage". Also, under separate cover, change the "Container Disposal" to comply with PR Notice 2007-4.
- Under the "Warranty and Disclaimer" section replace "To the extent allowed by applicable law" with "To the extent consistent with applicable law".

This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Submit one (1) copy of final printed labeling incorporating the above changes before you release the product for shipment. Amended labeling will supersede all previously accepted labels. A copy of your label stamped "Accepted w/ Comments" is enclosed for your records.

Regarding the Special Local Need registration associated with this parent product registration (FL860008), the Agency has no adverse comments regarding the revised labeling submitted in connection with registration under FIFRA section 24(c) and in response to the RED.

Please forward a copy of the revised SLN labeling to the appropriate State official(s) for their comment/approval. Any additional State-stipulated wording or limitations, including reference to applicable State Rules or Regulations or updates to them, must appear on the labeling. Please notify the Agency by e-mail to Kish.Tony@epa.gov when you actually do forward the revised SLN label(s) to the State(s). When submitting each label to the State, please request the State to forward a copy of the revised SLN label (including their additions, if any) to the Agency for official confirmation of their receipt and approval, since Agency approval of the State's notification is required to finalize the action.
