DECCO 271 Aerosol

POTATO SPROUT INHIBITOR

ACTIVE INGREDIENT: Chlorpropham* (Isopropyl N-(3-chlorophenyl) carbamate)	By Weight
INERT INGREDIENTS:	98.0%
TOTAL	100.0%

ACCEPTED * Contains 9.66 pounds active ingredient per gallon
 with **COMMENTS**
 in EPA Letter Dated:
 AUG 8 1995

FOR AGRICULTURAL USE ONLY

Under the Federal Insecticide
 Fungicide, and Rodenticide Act
 EPA Reg. No.
 2792-70

Keep Out of Reach of Children

CAUTION

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Wash thoroughly after handling. Avoid contact with skin, eyes or clothing. Avoid breathing dust.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink 1 or 2 glasses of water and induce vomiting by placing fingers in back of throat. Get immediate medical attention. Never give anything by mouth to an unconscious person.

IF IN EYES: Flush with plenty of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

EMERGENCY INFORMATION

For spill, leak, fire, exposure, or accident call CHEMTREC 1-800-424-9300.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by disposal of equipment wash waters.

Net Contents: 5 gallons

EPA Reg. Number 2792-*TN*
EPA Est. Number 2792-CA-1

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

NOTICE

- Decco 271 is used as an aerosol for treating potatoes for sprout inhibition during storage.
- If entry into the storage area is necessary during or immediately following application before the fog has settled, protective clothing and respirators must be worn.
- Do not apply in the field.
- Do not use on seed potatoes.
- Do not allow vapors to come in contact with, or get near to, storage areas used for seed potatoes.
- Let six months elapse before using treated storage area for seed potatoes. All system components (including ducts) and building must be thoroughly cleaned before area is used for storage of seed potatoes.
- Decco 271 will prevent periderm formation of potatoes, therefore, it should be used only after bruises and cuts have healed (normally minimum of two weeks).

FORCED AIR DISTRIBUTION METHOD

1. Insert aerosol generator intake hose in Decco 271 Aerosol container.
2. Set air ducts for recirculation.
3. Place exhaust end of aerosol generator at center of plenum (air mixing chamber) pointing it in direction of air flow. This will assure the best possible distribution of Decco 271 Aerosol throughout the duct system.

TREATMENT OF STORAGE OR OTHER AREAS THAT DO NOT HAVE RECIRCULATING AIR SYSTEMS

Prior to placing the potatoes in the area to be treated, make the following preparations:

1. On the floor of the area, install an air duct approximately 12 inches by 12 inches running the length or width of the potato pile leaving a false wall space at both ends for air circulation. The ducts should be spaced 10 to 12 feet apart and can be perforated metal pipe, slotted wood construction or if the potatoes are in bags, by bridging a 12 inch space between two rows of bags in the bottom layer with bags placed crosswise of the space.
2. At the end of each duct in the false wall space where the fog is to be introduced, place a squirrel cage fan positioned to force air through the duct. The exit end of the duct must be blocked to force the air up through the piled potatoes.

When the area is filled and ready to treat, the following steps should be taken:

- a. Close off any ventilating systems
- b. Start the squirrel cage fans
- c. Introduce the fog as near as possible to the bottom of the false wall space containing the fans.
- d. Operate the fans until the fog has settled
- e. Reactivate the ventilation systems 4 hours following application or when the fog has settled.

Note: When treating small areas such as trailer trucks or railroad cars, it is recommended that low volume aerosol generators such as a "Swing Fog" is to be used.

APPLICATION

Application of Decco 271 Aerosol can be made anytime after the curing period and before sprouting of potatoes occurs.

1. Apply at rate of 1 pound active ingredient per 1,000 bushel (600 cwt) One gallon treats 10,000 bushels (6,000 cwt). Treat according to volume of storage (see table under heading "Recommended Chlorpropham Rate" for conversion)
2. For low volume application, use FORCE AIR recirculation through the pile at rates up to 5.0 CFM per ton of potatoes. For other application, use lowest FORCE AIR recirculation available for the applicator. Check for uniform air distribution throughout the potato pile.
3. Keep storage closed during application. Continue to recirculate air in storage for at least 4 hours or until the fog has settled. Return storage to normal ventilation as soon as possible following application.

1 cwt = 1.67 bushels = 2.5 cubic feet; 1 bushel = 60 pounds = 1.5 cubic feet

RECOMMENDED CHLORPROPHAM RATE

To calculate the rate needed use the following formula:
 % of Standard Application Rate = $(2 \times T) + [(5 \times M) - 5]$
 Where: Standard Application Rate = 1 pound active ingredient/600 cwt
 T=Storage Temperature
 M=Number of Months Storage Time
 Example Calculation: (Potatoes stored at 45°F for six (6) months)
 Required Rate = $(2 \times 45) + [(5 \times 6) - 5] = 115\%$

F1 - Rates for 55° F and 60° F are for processing potatoes only.
 Chart assumes treatment soon after suberization time.

TIME	STORAGE TEMPERATURE				
Months	40° F	45° F	50° F	55° F/1	60° F/1
1	80%	90%	100%	110%	120%
2	85%	95%	105%	115%	125%
3	90%	100%	110%	120%	130%
4	95%	105%	115%	125%	135%
5	100%	110%	120%	130%	140%
6	105%	115%	125%	135%	145%
7	110%	120%	130%	140%	150%
8	115%	125%	135%	145%	155%
9	120%	130%	140%	150%	160%
10	125%	135%	145%	155%	165%

Extended Storage - If the potatoes are hold in storage longer than originally anticipated, the potatoes may be retreated. Using the above chart, the retreatment dosage is equal to the total amount required for the extended storage time less the amount used for the original storage time. For example, potatoes stored at 45°F were treated based on a two (2) month storage period. A decision was made to extend storage to five (5) months (three months in addition to original 2 months). The total extended storage would require a total of 110% of the standard rate; the original treatment would have used 95% of the standard rate. In this case, retreatment would require 15% (110%-95%) of the standard treatment.

STORAGE AND DISPOSAL

STORAGE:

Keep container closed. Do not contaminate water, food or feed by storage or disposal. This product inhibits germination of seed potatoes.

PESTICIDE DISPOSAL:

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

Do not reuse the container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

WARRANTY AND DISCLAIMER

ELF ATOCHEM NORTH AMERICA warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposed referred to in the Direction for use, subject to the risks referred to therein. ELF ATOCHEM NORTH AMERICA MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY, IN NO CASE SHALL ELF ATOCHEM NORTH AMERICA OR SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, BUSINESS REPUTATION, OR CUSTOMERS; LABOR COST, OR OTHER EXPENSES INCURRED IN REPACKAGING, SORTING OR REPROCESSING.

ELF ATOCHEM NORTH AMERICA and seller offer this product and the buyer and user accept it subject to the foregoing conditions of sale and warranty which may be varied only by agreement in writing signed by a duly authorized representative of ELF ATOCHEM NORTH AMERICA.
