

SANI-MUG is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi.

SANI-MUG mixes readily with water to make a clear, stable solution. In use dilution, it is odorless and non-staining on vinyl, plastics, finished wood, glass, porcelain, ceramics and most common metals.

SANI-MUG is especially recommended for general disinfecting use in restaurants, taverns, rest homes, barber shops, beauty parlors, dairy and food processing plants.

GENERAL DISINFECTION AND SANITATION IN PUBLIC ROOMS, TAVERNS, RESTAURANTS AND HOMES. For floors, walls, counters, counter tops, tables, bedsteads, and other metal and wood furnishings... After thoroughly cleaning the item to be disinfected, apply SANI-MUG as follows: for general disinfecting, use 1 1/4 ounce of SANI-MUG per 1 gallon of water; for disinfecting surfaces difficult to clean or contagious disease areas, use 1 1/2 ounce per gallon of water. Solution may be applied with a mop, sponge, cloth or it may be applied in a soft spray.

SANITIZATION OF GLASSWARE, SILVERWARE, DISHES, COOKING UTENSILS. Clean with a suitable detergent, rinse thoroughly, immerse in a sanitizing rinse made with 1 ounce of SANI-MUG in 4 gallons of water, and air dry. Do not use a towel. Follow the recommendations of your health department.

KITCHEN AND FOOD PREPARATION OR FOOD STORAGE AREAS. The odorless property of SANI-MUG makes it excellent for use in these areas. Use at a concentration of 1 ounce per gallon on floors, walls, counters and counter tops after first thoroughly cleaning. Rinsing is required only on surfaces having direct food contact.

SANITIZATION OF DAIRY EQUIPMENT. Clean and rinse thoroughly. Then immerse in a sanitizing solution containing 1 ounce of SANI-MUG per 4 gallons of water. Milk cans and other equipment should be air dried. This same dilution is also recommended for flank and udder washing prior to milking. Follow the recommendations of your health department.

GENERAL DISINFECTION IN BARBER SHOPS AND BEAUTY PARLORS. Prepare disinfectant solution of 1 ounce SANI-MUG to 2 gallons of water. Clean thoroughly, then soak combs, brushes, scissors in disinfectant solution a minimum of 10 minutes before use.

MILDEW CONTROL. SANI-MUG is an effective mildew control agent when applied to properly pre-cleaned hard surfaces (plastic, enamel, tile, porcelain, finished wood) in a wetting concentration at a dilution of 1 ounce per gallon of water. Repeat application every seven days, or as needed.

DANGER: Keep Out of Reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Container disposal: Rinse empty container thoroughly with water and discard it.

INSTITUTIONAL SIZE

SANI-MUG T.M.

ODORLESS

DISINFECTANT—SANITIZER—DEODORANT

Phenol Coefficient using A.O.A.C. Method

vs Salmonella Typhosa	25
vs Staphylococcus Aureus	30
vs Escherichia Coli	26

Active Ingredients:

Alkyl (C ₁₄ , 58%; C ₁₆ , 28%; C ₁₂ , 14%) dimethylbenzylammonium chloride	10%
Sodium carbonate	1%
Total Active	11%
Inert Ingredients: Water	89%

DANGER:

KEEP OUT OF REACH OF CHILDREN
