## DIRECTIONS FOR USE

A level of 5% VINYZENE BP-5 based on total weight of material on the equipment control against bacteria and mold organisms. This level is recommended for shower curtains, wall coverings, mattress covers, and similar items. Add only the amount or the price of an equivalent amount of plasticizer.

For certain vinyl items which may be subjected to extended outdoor weathering, a level of 5% VINYZENE BP-5 should be evaluated. Such items would include vinyl tarpaulins procured by military and naval agencies for protection of items subjected to extended outdoor storage.
