

# Durotex 7487-A

Fungistat-Bacteriostat for Industrial Non-Clothing Textile Applications

AC

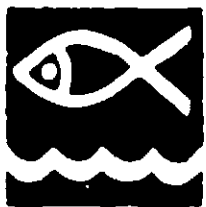

**Keep Out of Reach of Children** — Durotex 7487-A is a highly effective fungistat-bacteriostat. It is a white powder that is easily dispersed in water. It is used to protect textiles from mold and mildew. It is not intended for use on food or food containers.

**First Aid:** If inhaled, remove to fresh air. If in eyes, flush with water. If on skin, wash with soap and water. If swallowed, drink plenty of water. Do not induce vomiting.

NOT FOR  
HUMAN USE

Do not use in areas where aquatic life is present. Do not discharge into water bodies.

Do not use in areas where aquatic life is present. Do not discharge into water bodies.

Do not use in areas where aquatic life is present. Do not discharge into water bodies.

## DIRECTIONS FOR USE

For use on textiles, mix with water in a ratio of 1 part Durotex 7487-A to 100 parts water. Apply to the textile surface. Do not use on leather or other materials.

For use on machinery, mix with water in a ratio of 1 part Durotex 7487-A to 100 parts water. Apply to the machinery surface. Do not use on electrical equipment.

## NOTICE TO USER

Do not use in areas where aquatic life is present. Do not discharge into water bodies.

Active ingredient: Durotex 7487-A  
Inert ingredients: Water, etc.

## DANGER

**Keep Out of Reach of Children** — Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food. Avoid breathing vapor or mist.

**First Aid:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN:

Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not reuse empty drum. Rinse empty container thoroughly with water and destroy by perforating or crushing and burying in a safe place.

## DIRECTIONS FOR USE

DUROTEX 7487-A is a cationic emulsion concentrate. It is readily dilutable with water and may be applied to fabrics on conventional padding equipment after which the fabric may be dried on cans or on a frame. It may be combined with fluorocarbons and will withstand standard curing temperatures.

Where exposure to weather or severe leaching is a factor it is recommended that 4-5% DUROTEX 7487-A be incorporated into the fabric, based on the finished weight. For textile to be used under indoor conditions it may be possible to use as little as 2 - 2.5% in the fabric. See data sheet for additional directions.

## NOTICE TO USER

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
