

# Durotex® 7603

A BACTERIOSTATIC AND FUNGISTATIC EMULSION CONCENTRATE FOR TEXTILES AND ADHESIVES

## PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

### DANGER

Corrosive, causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed.

### FIRST AID

If splashed on skin, wash thoroughly with soap and water. If splashed in eyes, wash eyes immediately with copious amounts of water and secure medical attention immediately. Wash after handling.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. Do not apply directly to water.

### DIRECTIONS FOR USE

#### NOTICE TO USER:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Triple rinse empty containers and offer for recycling. Metal drums that cannot be reconditioned and recycled, should be punctured or crushed and disposed of in a landfill, or other procedures approved by state and local authorities.

Pesticide wastes are toxic. Improper disposal of empty pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State pesticide or Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.

In cotton, spun rayon or polyester fabrics or blends thereof, a level of from 2% to 5% DUROTEX will afford excellent protection against attack by surface growing bacterial and fungal organisms.

The higher level of protection is recommended for use in fabrics which will be subjected to weathering. For such applications the use of a water repellent or resin binder is recommended. Many commercial water repellent formulations, as well as binders such as PVA or acrylics are compatible with the DUROTEX compounds, and will greatly aid in the creation of a more durable system.

For mattress ticking fabrics a level of 2% to 3%, based on the finished weight of the fabric, is recommended. A resin binder such as PVA or acrylics cleared for textile use by the FDA should be employed.

For the protection of adhesives (non food grade), latex emulsions, and similar systems, a level of 0.75 to 2% is sufficient to protect the product against bacterial or fungal deterioration.

FOR ADDITIONAL INFORMATION REFER TO TECHNICAL DATA SHEET

Active ingredient:

10, 10'-oxybisphenoxarsine 2.0%  
(Total arsenic as elemental As - 0.60%)  
(Water soluble arsenic as elemental As - Less than 0.02%)

Inert ingredient:

98.0%

FOR ADDITIONAL INFORMATION REFER TO TECHNICAL DATA SHEET  
Contains The Toxic Inert NONYLPHENOL

**READ THIS LABEL BEFORE USING**  
**KEEP OUT OF REACH OF CHILDREN**
