

Stock # 38915

MYSTOX LPL - 40 E

CONTROLS MOLD AND MILDEW ORGANISMS AND
ROT AND DECAY ORGANISMS IN TEXTILES

CAUTION KEEP OUT OF REACH OF CHILDREN FOR COMMERCIAL USE ONLY

Do not allow contact with skin. If splashed on skin, wash thoroughly with soap and water. Do not allow material to be splashed in eyes. If splashed in eyes, wash eyes immediately with copious amounts of water and secure medical attention immediately. Wash after handling. Avoid contact with clothing. Harmful if swallowed.

The product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

DIRECTIONS FOR USE

MYSTOX LPL - 40E is supplied as an emulsion concentrate and is easily miscible with water. It is recommended that a small amount of water be first added to the MYSTOX LPL - 40E while agitating. Once a smooth homogeneous slurry has been formed, the balance of the water can be added rapidly. Conventional padding equipment may be used, after which the fabric can be dried on cans or on a frame.

When exposure to weather or sewers leaching is a factor, it is recommended that 5% MYSTOX LPL - 40E be incorporated into the fabric based on the finished weight. For materials to be used under indoor conditions or in conjunction with a vinyl coating, it may be possible to use as little as 2.5% in the fabric.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Active Ingredient	%
Fatty acid ester of 2,4-dichlorophenoxy	40
(C ₁₂ H ₂₅) ₂ O	60
Inert Ingredient
