

Durotex 7665A

CONTROLS MOLD AND MILDEW ORGANISMS AND ROT AND DECAY ORGANISMS IN TEXTILES

CAUTION
KEEP OUT OF REACH OF CHILDREN
FOR COMMERCIAL USE ONLY

Avoid all contact with skin. If detached on skin, wash thoroughly with soap and water. Do not allow material to come in contact with eyes. If splashed in eyes, wash eyes immediately with copious amounts of water and secure medical attention immediately. Wash after handling. Avoid contact with clothing. Harmful if absorbed.

This product is toxic to fish. Treated effluent should not be discharged where it will pollute lakes, streams, ponds, or public water. Do not contaminate water by cleaning equipment or disposal of wastes.

Do not empty from. Return to manufacturer or destroy by perforating or burning and burying in a safe place.

DIRECTIONS FOR USE

Durotex 7665A is supplied in an emulsion concentrate and is easily miscible with water. It is recommended that a small amount of water be first added to the concentrate and stirred. Once a smooth homogeneous slurry has been formed, this mixture of water can be added rapidly. Conventional padding equipment may be used after which material can be dried on a frame.

When used on wet material, a water repellent is recommended that is compatible with Durotex 7665A. A repellent is recommended based on the finished weight of material to be protected. For application, see instruction with a vinyl acetate emulsion. For more information, contact the manufacturer.

Active ingredient
Fatty acid esters of pentachlorophenol (C₆-C₂₀) 38%
Inert ingredients 62%
