NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Registration Standard Guidance Package, EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted." This registration is granted under the authority of section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted.

1. See August 23, 1983, letter and comply with comment 11. A stamped copy of the label is enclosed for your records.

Attention: T. C. McEntee

Gentlemen:

Subject: Vinyzene BP-5 DOP
EPA Registration No. 2829-104
Your Letter Dated June 11, 1985, and Request for Alternate
Formulation Dated March 27, 1985

There is no objection to the use of the alternate formulation requested
in your letter of the above date. The amendment has been inserted in the
file for the subject product.

Sincerely yours,

Henry M. Jacoby
Product Manager (21)
Fungicide-Herbicide Branch
Registration Division (TS-767)

VINYZENE® ANTIMICROBIALS

PRODUCT SERIES

BF-5
BF-5 DIDP
BF-5 DOP
BF-5 ERLA
BP-5 RG
BP-5 S-160

ACCEPTED
with COMMENTS
in EPA Letter Dated:

REREGISTERED
AUG 26 1985

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, the pesticide
registered under EPA Reg. No.

2829-104

DESCRIPTION

VINYZENE antimicrobials are solutions of 10,10'-oxybisphenoxarsine (OBPA) in selected non-volatile plasticizer carriers. They are recommended for PVC, polyurethane and ethylene-vinylacetate copolymer formulations. Low concentrations of VINYZENE antimicrobials will provide long-term protection against a broad spectrum of bacterial and fungal attack and will help prevent surface growth, musty odors, permanent staining, embrittlement and premature product failure.

APPLICATIONS

VINYZENE antimicrobials are recommended for film and sheeting, extruded profiles, plastisols, molded goods, organosols, fabric coatings and similar systems requiring an effective antimicrobial compound. These solutions are compatible with most polymer formulations and will not discolor or detract from the protected product's chemical or physical properties. VINYZENE products can be conveniently incorporated into the formulation.

Properly formulated plastics with VINYZENE protection will resist microbiological deterioration after long-term exposure to heat and severe weathering conditions.

VENTRON CAN PROVIDE MICROBIOLOGICAL SUSCEPTIBILITY TESTING AND ASSISTANCE IN DEVELOPING FORMULATIONS TO MEET YOUR SPECIFIC REQUIREMENTS.

Susceptible items successfully protected with VINYZENE:

SHOWER CURTAINS
FLOOR COVERINGS
WALL COVERINGS
DITCH LINERS
COATED FABRICS
VINYL MOLDING
MARINE UPHOLSTERY

AUTO LANDAU TOPS
TARPAULINS
AWRINGS
REFRIGERATOR GASKETS
WEATHER STRIPPING
SWIMMING POOL LINERS

TYPICAL PROPERTIES

<u>PRODUCT</u>	<u>PLASTICIZER</u>	<u>% OBPA</u>	<u>SPECIFIC GRAVITY 25°C</u>	<u>FLASH POINT</u>
BP-5	Epoxidized Soybean Oil	1.0	0.997	477°F
BP-5 DIDP	Diisodecyl phthalate	1.0	0.966	435°F
BP-5 DOP	Di (2-ethylhexyl) phthalate	1.0	0.983	395°F
BP-5 ERLA	Epoxy Plasticizer	1.0	1.160	376°F
BP-5 RG	Epoxidized Soybean Oil	1.0	0.995	575°F
BP-5 S-160	Butyl benzyl phthalate	1.0	1.115	402°F

RECOMMENDED USE LEVELS

- Interior Applications: VINYZENE BP-5 Series - 3.0%
- Exterior Applications: VINYZENE BP-5 Series - 5.0%

The recommended use levels are based upon tests conducted in Ventron Laboratories and exposure of products to actual service conditions. Recommendations on formulation parameters for products are available from Ventron.

VINYZENE BP-5 formulations are incorporated into a compound by substituting the required level (3% or 5%) for an equal amount of plasticizer. For example, in 1000 lbs, of a compound containing 300 lbs, of DOP plasticizer and requiring a 5% VINYZENE level, 50 lbs. of the DOP would be replaced with 50 lbs. of VINYZENE BP-5 DOP. It is important to remember that the cost of using VINYZENE is, therefore, calculated as the difference in cost between the VINYZENE and the replaced plasticizer.

HANDLING PRECAUTIONS

In their undiluted form, VINYZENE antimicrobials are skin irritants and contact with the skin or eyes should be avoided. If VINYZENE is splashed in the eyes, flush with copious amounts of water and secure immediate medical attention. If it is splashed on the skin, wash thoroughly with soap and water. VINYZENE solutions are harmful if swallowed and should be kept out of the reach of children.

VINYZENE antimicrobials are toxic to fish and wildlife. VINYZENE should not be discharged where it will drain into lakes, streams, ponds, or public water.

Wear eye protection and rubber gloves when handling.

VINYZENE BP-5 formulations should only be used as specified on the labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Triple rinse empty containers and offer for recycling or reconditioning.

Metal drums that cannot be reconditioned and recycled, should be punctured or crushed and disposed of in landfill, or other procedures approved by state and local authorities.

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

STANDARD PACKAGE AND EPA REGISTRATION NUMBER

BP-5	Steel drum, 450 lbs. net weight - EPA 2829-82
BP-5 DIDP	Steel drum, 430 lbs., net weight - EPA 2829-102
BP-5 DOP	Steel drum, 450 lbs., net weight - EPA 2829-104
BP-5 RG	Steel drum, 450 lbs. net weight - EPA 2829-82
BP-5 S-160	Steel drum, 450 lbs. net weight - EPA 2829-82
BP-5 ERLA	Steel drum, 450 lbs. net weight - EPA 2829-82

Seller makes no warranty, expressed or implied, concerning the use of this product, other than as indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

FIRST AID

IF on Skin: Wash with plenty of soap and water.
IF in Eyes: Hold eyelids open and flush with a steady stream of water for 15 min.
IF Swallowed: Induce vomiting; drink promptly large quantities of water and induce vomiting by touching the back of the throat with finger or other object, such as syrup of ipecac or 2 teaspoons of salt dissolved in a glass of water. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.
Note to physician: BAL is the antidote of choice.

Vinyzene® BP-5DOP

Bacteriostatic & Fungistatic Additive for Vinyl Compounds

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

AND DOMESTIC ANIMALS

Corrosive. Causes burns and irreversible eye damage. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Wear goggles (or face shield), rubber gloves and protective clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Active Ingredients:
10, 10'-oxybisphenoxarsine
(Total arsenic as elemental As - 0.80%)
(Water soluble arsenic as elemental As -
Less than 0.01%)
Inert Ingredients:

DO NOT APPLY DIRECTLY TO WATER ENVIRONMENTAL HAZARDS

Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

CONTAINER DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Triple rinse empty containers and offer for recycling. Metal drums that cannot be reconditioned and recycled, should be punctured or crushed and disposed of in a landfill, or other procedures approved by state and local authorities.

PESTICIDE DISPOSAL

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State pesticide or Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.

STORAGE AND DISPOSAL

DIRECTIONS FOR USE NOTICE TO USER

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

A level of 3% VINYZENE BP-5DOP, based on total weight of formulation, will give excellent control against bacteria and mold organisms. This level is recommended for shower curtains, wall coverings, mattress covers, and similar items.

For certain vinyl items which may be subjected to extended outdoor weathering, a level of 5% VINYZENE BP-5DOP should be evaluated. Such items would include vinyl tarpaulins procured by military and naval agencies for protection on items subjected to extended outdoor storage.

KEEP OUT OF REACH DANGER
