STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Triple rinse empty containers and offer for recycling. This container is hazardous when empty. Do not use heat, sparks, open flames, torches, cigarettes on or near empty container since empty containers retain product residues (vapor, liquid or solids). All labeled hazardous precautions must be observed. Do not reuse empty container for food, clothing or products for human or animal consumption or skin contact without professional cleaning.

CONTAINER DISPOSAL

METAL CONTAINERS

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

PLASTIC CONTAINERS

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL

CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product should not be used on items which come into contact with food stuffs nor items of clothing or infant wear.

VINYZENE BP-5 SIL3 has as its carrier low viscosity dimethylsiloxane and is, therefore, compatible with most silicone formulations. Since VINYZENE BP-5 SIL3 is a solution it may be added, as all of the ingredients, during any state of the mixing process. Temperatures up to 400°F will not affect the product. Long term mixing or high shear conditions will have no effect. VINYZENE BP-5 SIL3 should be used at levels of 1.0% to 1.67% based on the weight of the finished formulation (that is in-service compound composition). VINYZENE is recommended for use in shower curtains, floor coverings, wall coverings, coated fabrics, marine upholstery, automotive vinyl trim, vinyl molding, tarpaulins, awnings, gaskets, weather stripping, caulking, ditch liners, swimming pool liners, adhesives, coatings and specialty products, paper products, paper and plastic products, textiles, fibers and cordage carpets and other pesticides. VINYZENE BP-5 SIL3 is particularly used for caulks, sealants, coatings and architectural use (building construction, maintenance and rehabilitation).
