

Cuniphen® 2721-C

Cationic Fungistatic Treatment For Textiles

CAUTION

Keep Out of Reach of Children — Do not allow in direct contact with skin. Do not allow material to be splashed in eyes. Avoid contact with clothing. Harmful if swallowed.

If splashed on skin, wash thoroughly with soap and water. If splashed in eyes, wash eyes immediately with copious amounts of water and secure medical attention immediately. Wash after handling.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not reuse empty drum. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place.

DIRECTIONS FOR USE

For light weight fabrics such as cotton sheeting, perians, webbings and pipe-wrapping tapes, use 1.0% Cuniphen #2721-C (25-0.5% active ingredient) based on the finished weight of the fabric. The product should be applied at the padder and the fabrics dried in standard dry-cans or on a tenter. Cuniphen #2721-C is not recommended for clothing fabrics.

For heavy duty fabrics such as cotton duck and drills to be used in tents and awnings, use 1.5% Cuniphen #2721-C (6-1.5% active ingredient) based on the finished weight of the fabric. These fabrics conform to requirements of U.S. Army Standard Military Specifications. In treating these materials it is recommended that a soluble salt water be used.

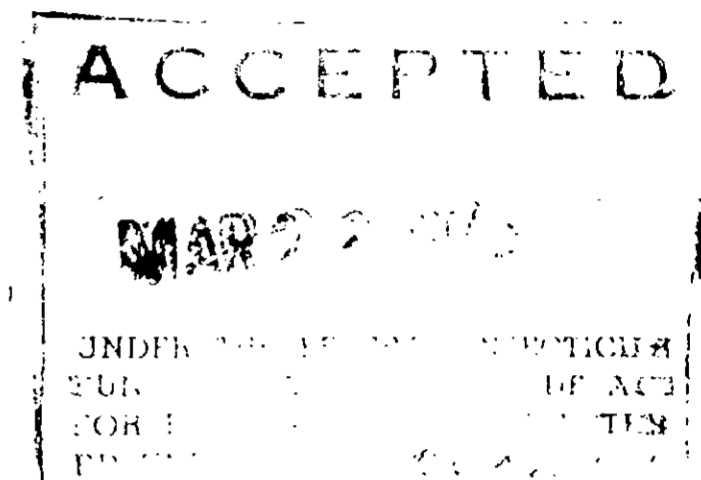

For the treatment of wool felt for military procurements, levels of from 2.0% - 7.5% Cuniphen #2721-C (1-3% active ingredient) based on the finished weight of the felt are recommended. The material is applied at the padder.

NOTICE TO USER

Cuniphen® 2721-C

Cationic Fungistatic Treatment For Textiles

CAUTION

Out of Reach of Children — Do not allow in direct contact
Do not allow material to be splashed in eyes. Avoid contact with clothing
if swallowed.

If on skin, wash thoroughly with soap and water. If splashed in eyes, wash eyes
thoroughly with copious amounts of water and secure medical attention immediately.
Avoid handling.

Product is toxic to fish and wildlife. Treated effluent should not be discharged where
it flows into lakes, streams, ponds or public water. Do not contaminate water by
leakage of equipment or disposal of wastes.

Use empty drum. Return to drum reconditioner or destroy by perforating or
cutting and burying in a safe place.

DIRECTIONS FOR USE

Use on weight fabrics such as cotton sheeting, poplins, webbings and pipe-wrapping
material to be exposed to weathering and which may be stored under high humidity
conditions. A level of 1.25-2.5% CUNIPHEN #2721-C (0.25-0.50% active ingredient)
based on the finished weight of the fabric is recommended. The product should be
applied at the padder and the fabrics dried on standard dry-cans or on a tenter.
Cuniphen #2721-C is not recommended for clothing fabrics.

Use on heavy fabrics such as cotton ducks and drills to be used in tents and awnings.
A level of 4-7.5% CUNIPHEN #2721-C (0.8-1.5% active ingredient) based on the
finished weight of the fabric are recommended. These levels conform to requirements of
Canadian Military Specifications. In treating these materials it is recommended
that a water-repellent be used.

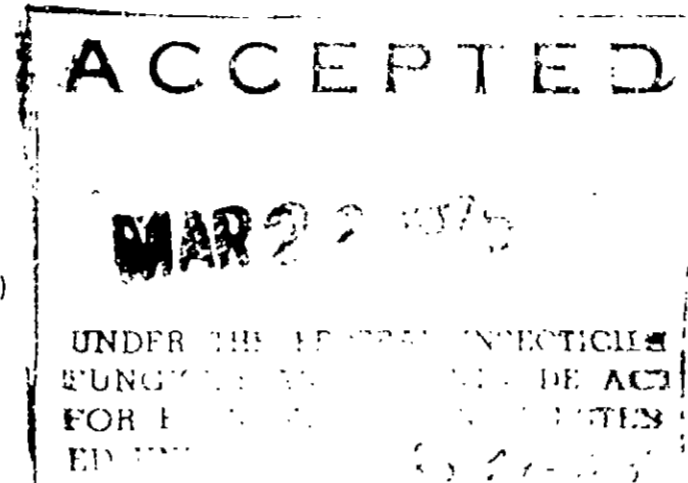

Use on wool felt for military procurements. Levels of from 2.0 to 7.5%
CUNIPHEN #2721-C (0.1-0.15% active ingredient) based on the finished weight of the
material are recommended. This may also be applied at the padder.
