KILLS

Flies, Mosquitoes, Ants, Moths, Bed Bugs, Roaches, Gnats, Fleas, Water Bugs, Clothes Moths, Silverfish, Grain Moths, Cadelles, Flour Beetles, and certain other household insects.

Will Not Stain—Important: Read Directions Carefully

DIRECTIONS

FLIES, WASPS, MOSQUITOES, HORNETS, GNATS

Close all doors, windows and transoms. Spray with a fine mist sprayer freely upwards in all directions so that the room is filled with the vapor. If insects have not dropped to the floor in 3 minutes repeat spraying as quantity sprayed was insufficient. After 10 minutes doors and windows may be opened. Repeat as needed. Do not remain in treated areas and ventilate the area after treatment is completed.

FLEAS (Infesting Premises)

Remove and destroy animal's bedding and spray sleeping quarters freely, forcing the spray into all cracks in the floor and about the room. Repeat when reinfested. Do not spray animals with this product.

MOTHS AND SILVERFISH

Brush articles thoroughly and remove grease spots. Clean and spray closets including cracks. Spray lightly over entire surfaces of clothing, blankets, tapestries, etc., especially seams and folds.

For furs and rugs, spray thoroughly down into the base of the pile. Spray from a distance of 2 feet from article. Repeat application every 30 days. Repeat treatments are not needed if treated articles are stored in moth-tight containers.

This household insecticide (liquid space spray type for flying insects) complies with all requirements for Grade AA of Commercial Standard CS72-54, as developed by the trade under the procedure of the Commodity Standards Division, and issued by the U. S. Department of Commerce.

USED IN

Restaurants, Taverns, Stores, Kitchens, Bakeries, Cafeterias, Canneries, Locker Rooms, Utility Rooms, Food Markets, Food Processing Plants, Washrooms, Porter's Closets, Hospitals, Hotels, Bottling Plants and other places where foods are processed and prepared.

Will Not Stain—Important: Read Directions Carefully

DIRECTIONS

ROACHES, ANTS, WATER BUGS

Spray all cracks and crevices thoroughly, when insects appear, wet them. Repeat for several days, then less frequently to control breeding.

These insects run away and hide, but die later from effects. Spray thoroughly all ant trails and areas around door sills and window frames where the pests enter the premises. Repeat application as often as necessary.

Grain Weevils, Cadelles, Grain Moths, Flour Beetles and Grain Mites (accessible stages). Wet surfaces thoroughly and treat all infested areas, insect runways and insect hiding places at the rate of one gallon of this material on 750 sq. feet of area which is point of runoff, hitting insects directly with this spray. Repeat when necessary.

BED BUGS

These insects must be sprayed direct. To destroy bug and eggs take bed apart. Spray joints, slats, springs and mattresses thoroughly. Repeat operation a few days later. Spray weekly behind base boards, mouldings, pictures and loose wall paper to control breeding.

CAUTION

Do not spray toward open flames. Store in a cool place. Keep container tightly closed. Remove or cover exposed food before spraying. Harmful if swallowed. Remove pets, birds and cover fish bowls before spraying.

CAUTION

This product is toxic to fish. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.
