

FOR COMPLETE STOPPAGE:

This product removes stoppages quickly in urinals, due to the gradual formation of scale, and other organic matter. Its regular use will prevent these stoppages, allow the water to flush more quickly down the drain, and banish those disagreeable urinal odors. Absolutely harmless on genuine porcelain. Will not hurt the pipes or plumbing fittings connected with the bowl. Just pour this product into the bowl or urinal, and it immediately begins to penetrate through the standing water in the trap and waste line until it reaches the obstruction, where it collects, and removes the scale with chemical reaction, and, therefore, clears the line. Simply let stand overnight and check the results in the morning.

ACTIVE INGREDIENTS:

Phosphoric Acid	17.00%
Hydrogen Chloride	1.57%
Alkyl (50% C-14, 40% C-12, 10% C-16) Dimethyl Benzyl	
Ammonium Chloride	1.00%
Essential Oils	0.30%

INERT INGREDIENTS 80.13%
BEFORE DISCARDING THIS CONTAINER, RINSE THOROUGHLY WITH WATER.

ANTIDOTE

INTERNAL—Call a physician immediately. Drink a teaspoonful or more of magnesia, chalk, or small pieces of soap, softened in water, in milk or raw egg white.
EXTERNAL—Eyes—Wash with water for 15 minutes. Get prompt medical attention. Skin—Wipe off acid gently. Immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

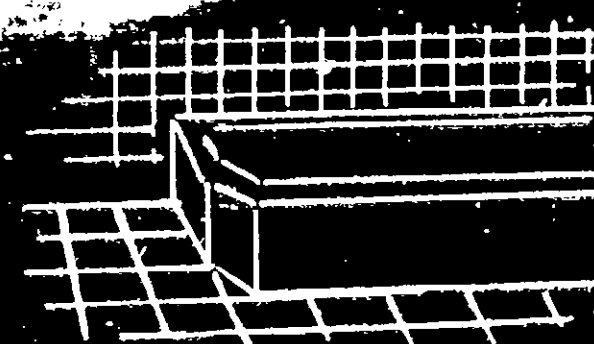

NAPASCO

ACTION IV

BOWL, PORCELAIN & SHOWER STALL CLEANER

DANGER: KEEP OUT OF REACH OF CHILDREN.
NAPASCO INTERNATIONAL THIBODAUX, LOUISIANA 70301

NET 32 FL. OZS. (1 QT.)

DIRECTIONS

FOR CLEANING OF TOILETS:

During initial cleaning, empty bowl by expelling water over trap, then apply disinfecting solution full strength onto stains with bowl mop or brush. Rinse thoroughly immediately with water after cleaning.

For more stubborn stains, allow this product to stand a few minutes on stains and this will make the work easier. The ring around the water line can easily be removed by taking two cups of water out of the bowl and replacing it with two cups of this product. Rinse thoroughly immediately with water after cleaning.

FOR USE ON SHOWER AND SWIMMING POOL TILE:

This product is an extremely powerful, non-selective bacterial, and germicidal cleaner which aids greatly in retarding growths and preventing odor forming fungi and mildew.

On initial application, pour in glass or plastic container, and add equal amount of water. Thereafter immerse brush or mop and apply where needed. Let solution remain on soiled and dirty surface three to five minutes—agitation not necessary. Thereafter brush lightly and rinse thoroughly over the entire surface.

For daily cleaning of wash basins, bathtubs, shower stalls, and drinking fountains, dilute with 4 parts of water and apply with soft cloth, swab or brush. Rinse thoroughly immediately with water after cleaning.

This product has excellent cleaning qualities, as well as excellent germicidal properties. Persons with sensitive skin should use rubber gloves if prolonged contact with skin is necessary.
