

WARNING—TOXIC

HARMFUL IF SWALLOWED. Causes eye and skin irritations. Do not get into eyes, on skin or clothing. Wear rubber gloves, and goggles or face shield when handling. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

In case of contact with skin, wash well with soap and water. In case of contact with eyes, flush promptly and thoroughly with clear water. For eyes, call a physician. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, ponds, streams, or public waters. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply the product only as specified on this label.

Do not reuse empty container. Send to drum reconditioner, or destroy by perforating or crushing and bury in a safe place.

DIRECTIONS FOR USE

BETZ Slimicide C-34 aids in the control of objectionable slimes formed by bacteria and fungi in industrial recirculating cooling-tower water equipment.

Initial Dose: When the system is noticeably fouled, apply 7.5 to 20.0 ounces (60-150 ppm) of BETZ Slimicide C-34 per 1000 gallons of water in the system. Repeat until control is achieved.

Subsequent Dose: When microbial control is evident, add 2.5 to 6.25 ounces (20-50 ppm) of BETZ Slimicide C-34 per 1000 gallons of water in the system every two days, or as needed to maintain control. The frequency of feeding and the duration of treatment depend upon the severity of slime and algae deposits. Badly fouled systems must be cleaned before treatment is begun. Apply at a point in the system where the product will be uniformly mixed.

FOR INDUSTRIAL USE ONLY. Technical advice regarding specific site problems is available from BETZ.

Contents: LIQUID

Active Ingredients

Sodium dimethyl
dithiocarbamate 15.0%

Nabam
(disodium ethylene bis-
dithiocarbamate) 15.0%

Inert Ingredients* 70.0%

*Inert ingredients include solubilizing
and dispersing agents.
