

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Harmful if swallowed. Avoid breathing vapors or spray mist. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration and the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11. Contains petroleum distillate. If swallowed do not induce vomiting. Get immediate medical attention. Avoid contact with skin and eyes. In case of contact immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not apply directly to food. Do not apply while food processing is underway. Cover or remove all food processing surfaces. Thoroughly wash all food processing surfaces before re-use. After spraying in meat packing plants, bakeries and the food processing plants, wash with potable water all equipment, benches, shelving, etc. where exposed food will be handled.

When using in animal housing areas, do not apply directly to food, water or feed supplements. Do not apply directly to animals. Wash teats of dairy animals before milking.

Remove pets, birds and cover fish aquariums before spraying.

This product is toxic to fish. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

PHYSICAL HAZARDS

Do not store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Mix well in drum before each use.

Note: When used in hospitals, patients should be removed to fresh treatment. Ventilate or two hours after treatment. Do not return patients to room until after ventilation.

General: This Concentrate is designed for use undiluted in mechanical sprayers which give particle size of aerosol size, such as the LECO Micro-Ger Micron Generator. It can be diluted with refined kerosenes which meet Food Additive Regulation 151.115, and can be applied in fogging equipment that gives larger than aerosol particle size, such as the Microsol or Challenger machines. It can also be diluted with oil specified above and applied as a contact spray to all crawling insects shown later on this label.

Space Spray: Undiluted in Aerosol Generator To Kill Flies, Mosquitoes, Smoky Moths and Gnats. Cover or remove exposed food and food handling surfaces. Close room and shut off all air conditioning or ventilation system. Apply at the rate of 1 ounce of undiluted concentrate with oil at the rate of 1 part concentrate plus 24 parts of oil and mix well. Apply at the rate of 1/2 ounce dilute

NP-3, 6, 10
PYROCIDE Fogging Concentrate

FOR USE IN HOME AND FOOD PROCESSING PLANTS, RESTAURANTS, INDUSTRIAL BUILDINGS, STORES, WAREHOUSES, OFFICES, THEATRES, GARAGES, HOTELS, MOTELS, HOSPITALS, KENNELS AND OUTDOORS

Active Ingredients:	
Pyrethrin	3.00%
Piperonyl Butoxide	6.00%
Inert Ingredients	91.00%
Total	100.00%

Contains 10% Pyrethrin, 10% Piperonyl Butoxide and 80% related compounds.

CAUTION: KEEP OUT OF REACH OF CHILDREN

NET CONTENTS 1 GALLON (3.8 L.)

Manufactured By

NAPASCO International Thibodaux, Louisiana 70301

spray is 4 gal. per 1000 cu. ft. room and ceiling area. Leave room before re-entry.

Contact Spray: Diluted for use. Particles to Kill Cockroaches and Weevils, Rice Weevils, Confused Larvae and Adults, Caddisflies. Grains: Remove exposed food and clean with oil at the rate of 1 part Concentrate to 24 parts of oil. Floor, baseboards, area behind cabinet using 1 gallon spray per 1000 sq. ft. crevices. Repeat application as needed. Contact and Space Spray: Undiluted. Ants: Soldiers in Sheltered Situation. Cracks and crevices in woodwork and in all places where these insects are found. Do not allow spray to contact stored food. Do not spray in room where people are. Leave the room closed for one hour before re-entry.

To Kill Flies, Mosquitoes and Gnats: Areas: When properly used, this product kills mosquitoes and gnats in feedlots. Temperature is 60°F or less. Using the recommended equipment, up wind of the area to be controlled, maintain in addition to spraying.
