

# NO-WEED "500"

KAPCO NO-WEED "500" is a high nitrogen, natural organic base fertilizer plus 2,4-D (weed killer) for use on turf, except bent grasses. Ideal to use when weeds are growing their best, either spring or fall, even if Turf Food, "Blue Chip" Turf Food, Kap-Organic, or any other fertilizer has been applied earlier.

## DIRECTIONS

1. Grass should not be cut for several days before application.
2. Soil should be moist to a depth of 2½ to 3 inches.
3. Grass blades should be dry.
4. Apply 10 to 12 pounds per 1000 square feet--500 pounds per acre in the spring or fall when weeds are actively growing. (10 pounds per 1000 square feet supplies 1.0 pounds of actual nitrogen).
5. Do not water in NO-WEED "500" for at least 6 to 8 hours after application.
6. If possible, water in thoroughly 24 hours after applying.

**WARNING:** This fertilizer contains 2,4-D. Read above directions carefully. Do not store near other fertilizers, seeds, insecticides, or fungicides. Do not use on bent grasses and legumes, including white clover. Avoid applications on young tender grass that is less than six months old. Do not use on new lawn seedbeds. Do not use during extremely hot, dry weather. Do not use more than recommended amounts. Avoid drift to susceptible flowers and shrubs. Do not apply when wind is blowing.

**WARRANTY:** Since the use of this product is beyond the control of the seller, the buyer assumes all risks of use or handling, whether in accordance with directions or not, as the seller makes no warranty, expressed or implied, concerning this product.

**NOTE:** NO-WEED "500" is a synthetic organic base fertilizer plus 2,4-D. It is used on turf, except Bent grass, and on lawns where grasses are growing the best in the spring or fall. It is also used on Blue Chip and other organic lawns if no fertilizer has been applied earlier.

## DIRECTIONS

1. Grass should not be cut for 24 hours after application.
2. Soil should be moist to a depth of 2 inches before application.
3. Grass blades should be dry.
4. Apply 10 to 12 pounds per 1000 square feet in the spring or fall when grass is actively growing. Each 1000 square feet supplies 1.0 pounds of actual nitrogen.
5. Do not water in NO-WEED "500" for 24 hours after application.
6. If possible, water thoroughly after application.

**WARNINGS:** Do not use on lawns containing 2,4-D. Read above directions carefully. Do not use near other fertilizers, seeds, seedlings, or fungicides. Do not use on bent grasses and James' Dwarf grass. Do not use on young water grasses less than six months old. Do not use on lawns during extremely hot, dry weather. Do not use on lawns with unweeded amounts. Do not use on lawns with weeds and grasses. Do not apply this fertilizer to lawns.

**WARRANTY:** This product is warranted to be of the quality and quantity shown on the label. It is not a guarantee of performance. The user assumes all responsibility for the results obtained. No liability is assumed by the manufacturer concerning the use of this product.
