 REFINED CREOSOTE OIL**

Preserves wood by killing fungi, termites, and wood boring insects. Stains wood a rich brown color. Protects wood against moisture. Do not use on surfaces to be painted.

Apply two liberal coats of Creosote by brush or spray to well-seasoned lumber. Coverage is approximately 100 sq ft per gallon. For dipping of fence posts, poles, foundation timbers and heavy wooden members, use well seasoned and dry wood, free of bark. Immerse for a period of 12 to 24 hours. Creosote will crystallize in temperatures of 40 F but will return to liquid if stored at room temperature.

Caution! Do not use, pour, spill or store near heat or open flame. Avoid breathing of vapors and spray mist. Avoid contact with skin. Take extreme caution to protect eyes from any contact with this material. If swallowed, do not induce vomiting. Call physician. Creosote should not be used inside dairy barns or other structures where it may contact food, feed or livestock.

Do not re-use empty container. Destroy by perforating or crushing. Bury or discard in a safe place away from water supplies.

This product is toxic to fish and wildlife. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.
