

USE IN ACCORDANCE WITH DIRECTIONS, WARNING AND CAUTION

WARNING: Do not spray or allow to drift onto desirable flowers, trees, shrubs, vegetables or into lakes or streams. Coarse sprays are less likely to drift. Do not store near fertilizer, fungicides, insecticides or seeds.

CAUTION: Do not get in eyes or on the skin. If spilled on skin, wash off immediately with warm water and soap. Flush eyes with clear water. Avoid any inhalation of spray mist. Avoid contamination of feed, foodstuffs, streams or other water sources. Keep beyond the reach of children and domestic animals. Keep children and domestic animals off treated areas. Do not contaminate any water source with this product. Harmful if swallowed. Wash hands after using. Do not graze treated areas or feed livestock treated forage.

ANTIDOTE: If taken internally induce vomiting and call a physician at once.

NON WARRANTY: Vineland Chemical Company and seller warrant that this material will conform to ingredients indicated on label, but make no other warranty implied or expressed. Neither Vineland Chemical Company nor seller shall be held responsible for personal injury, property damage or other loss resulting from the handling, storage or use of the product, whether or not in accordance with directions. Buyer assumes all risks and liability therefrom and accepts and uses the product on these conditions. No person is authorized to waive this notice.

Licensed for use in the control of crab grass according to the method of Patent 2,678,265 by reason of the inclusion in the purchase price of a royalty. A license at the same royalty rate to use the patented method with material obtained from any source will be granted, upon request, by Trustees of U. S. Patent 2,678,265, P. O. Box 204, Summit, New Jersey.

READ ENTIRE LABEL and use in accordance with label cautions, warnings and directions. SUPER CRAB-E-RAD contains AMA (Methanearsonate). Rapid acting, effective all season, does little or no injury to permanent lawn, fairway and fine turf grasses.

DIRECTIONS

Soil should be moist before treatment. Resume keeping soil moist two days after treatment and especially during hot, dry weather. Bent and Fescue Grasses are more sensitive and may be temporarily discolored. Zoysia, Bluegrasses and Bermuda are quite tolerant. Do not use on St. Augustine. Two applications five to seven days apart are generally needed for control. Follow-up spot-sprays may be needed. On very large areas using commercial spray equipment, both water and SUPER CRAB-E-RAD may be reduced if spray equipment can wet foliage thoroughly.

USAGE RATES

For Temperatures Above 80 Degrees F.

Rate	Amount Water	Area Covered
1 Pint	4-5 Gallons	2,000 sq. ft.
1 Gallon	25-40 Gallons	16,000 sq. ft.
2½ Gallons	75-100 Gallons	1 Acre

For Temperatures Below 80 Degrees F.

Rate	Amount Water	Area Covered
1 Pint	2-3 Gallons	1,000 sq. ft.
1 Gallon	15-20 Gallons	8,000 sq. ft.
2½ Gallons	35-50 Gallons	½ Acre

Before using any Herbicide, stop and read the label.
