

# WEED-E-RAD

**DSMA POWDER**  
**FOR DALLISGRASS CONTROL**  
**IN BERMUDA TURF LAWNS**

<b>ACTIVE INGREDIENT:</b>	
Disodium Methanearsonate .....	63.00%
<b>INERT INGREDIENTS:</b>	37.00%
<b>TOTAL</b>	<b>100.00%</b>
Contains 25.65% Arsenic, as elemental, all in water soluble form .....	25.65%
Equivalent of 100% Disodium Methanearsonate Hexahydrate	

**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION:**

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Wear protective clothing when handling or applying this product including long sleeve shirt, and impermeable gloves and boots.  
Harmful if swallowed or inhaled. Avoid breathing spray mist. (Coarse sprays are less likely to drift.) Avoid contact with eyes, skin or clothing. Causes eye irritation. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Keep children and domestic animals off treated areas until washed into soil.

### STATEMENT OF PRACTICAL TREATMENT

If swallowed, call a physician immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.  
If on skin, wash with plenty of soap and water. Get medical attention if irritation persists.  
If inhaled, remove victim to fresh air. Apply artificial respiration, preferably mouth to mouth, if indicated.  
If in eyes, flush with plenty of water. Get medical attention if irritation persists.

## ENVIRONMENTAL HAZARDS

Do not contaminate waters used by wildlife, aquatic life, domestic animals or waters used for irrigation. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

## PRODUCT INFORMATION

**WEED-E-RAD** (100% DSMA Hexahydrate) is a selective water soluble herbicide used Post-Emergence for DALLISGRASS control in Bermuda Turf. For best results soil should be moist at time of application. Dry soil may not allow desirable turf to resist the action of chemicals. Water thoroughly before treatment, especially during drought, extreme heat and low soil moisture.

## DIRECTIONS FOR USE

*It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.*

USE **WEED-E-RAD** along drainage ditchbanks, rights-of-way, implement storage yards and similar non-crop areas where cultivation is not practical. Mix at the rate of 3% to 4% pounds of **WEED-E-RAD** in 40 gallons of water and 2 pints of a suitable surfactant to treat one acre.

## RECOMMENDED RATES TO TREAT ONE (1) ACRE

Mix 3 to 4 lbs. **WEED-E-RAD** in 50 to 75 gallons of water. Add 1 quart of VICHEM "958" Wetting Agent.

**NOTE:** Wetting Agents are used to decrease run-off and increase effectiveness of chemical through leaf absorption.

For complete control of broadleaf as well as grassy weeds add 1 pint of VICHEM (40% Amine) to solution.

**WEED-E-RAD** is effective at the above rates when temperature is 80°F. or higher. For temperatures below 80°F. use twice the amount of **WEED-E-RAD** to treat the same area.

Since all seeds do not germinate at the same time, it may be necessary to obtain complete selective kill with one application. Two or three treatments may be required. Apply approximately at 5-7 day intervals. First treatment should give about 50% kill. Slight discoloration of turf may occur but normal color will return in a few days. Do not use **WEED-E-RAD** on ST. AUGUSTINE, CARIPE, or CENTURED GRASSES. Do not use hose-end applicators.

**ACCEPTED**  
 MAY 1988  
 EPA Reg. No. 2853-18  
 EPA Est. No. 2853-NJ-1  
 Under the Federal Insecticide, Fungicide, and Rodenticide Act, the Administrator of the Environmental Protection Agency has determined that the labeling of this pesticide complies with the requirements of the Act.

## STORAGE AND DISPOSAL

**PROHIBITION:** Do not store near feed or food products.

**PESTICIDE DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in same manner.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.
