

DIRECTIONS FOR GENERAL WEED CONTROL

DIE-WEED WETTABLE (MSMA plus Surfactant) Liquid Herbicide may be used along drainage ditch banks, rights-of-way, implement storage yards and similar non-crop areas.

DIE-WEED WETTABLE is effective for controlling JOHNSON GRASS, GOOSE GRASS, WATER GRASS, COCKLEBUR, NUT GRASS, GREEN and YELLOW FOX TAIL, DALLIS GRASS and other weeds.

RECOMMENDED RATES TO TREAT ONE (1) ACRE

- (1) Mix at the rate of 2 quarts in 40 gallons of water. (No wetting agent required). Following mixing directions as for cotton application.
- (2) Apply entire solution, broadcast spray, thoroughly wetting foliage and stems of weeds. If regrowth occurs, a second application will be required.

DO NOT CONTAMINATE WATERS used by wild or aquatic life, domestic animals or for irrigation.

DO NOT GRAZE TREATED AREAS. Do not store or use treated storage. Avoid storage near food and feed products. Do not allow children and domestic animals. Keep children and domestic animals away from treated areas.

CAUTION: Harmful if swallowed. Avoid breathing of spray mist. WASH HANDS AFTER USE.

ANTIDOTE: If taken internally, induce vomiting at once.

NON WARRANTY: Triangle Chemical Company does not warrant that this material will conform to ingredients. Buyer makes no other warranty implied or express. Triangle Chemical Co. or seller shall be held responsible for property damage or other loss resulting from the handling, storage or use of the product, whether or not in accordance with directions. Buyer assumes all risks and liability therefrom and accepts and uses the product on these conditions. No person is authorized to waive this notice.
