PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Wear protective clothing when handling or applying this product, including long pants, long-sleeved shirt, and impermeable gloves and boots. Do not apply with hose-end applicators.

Harmful if swallowed or inhaled. Avoid breathing spray mist. Avoid contact with eyes, skin or clothing. Causes eye irritation. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Keep children and domestic animals off treated areas until washed into soil. Do not graze treated areas. Avoid contamination of feed or food products.

STATEMENT OF PRACTICAL TREATMENT

If swallowed, call a physician immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If on skin, wash with plenty of soap and water. Get medical attention if irritation persists.

If inhaled, remove victim to fresh air. Apply artificial respiration, preferably mouth to mouth, if indicated.

If in eyes, flush with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

STORAGE: Do not store near food or feed products.

DISPOSAL: Do not reuse container. Securely wrap original container in several layers of newspaper and discard in trash. Clean sprayer with water and discard rinse water onto sprayed area.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read entire label - Use strictly in accordance with label directions and precautionary statements.

GENERAL INFORMATION

WEED-HOE 108 is a liquid selective contact herbicide - effective through foliar absorption - used postemergence for weed control in turf. WEED-HOE 108 is safe on most desirable grasses when used according to label directions.

WEED-HOE 108 contains a surfactant designed for maximum wettability. It is ready to use - only water need be added. For best results, spray weeds when they are actively growing and when air temperature is above 70°F.

FOR TURF:

Apply to actively growing turf only.

DO NOT use on Dichondra, Centipede, St. Augustine or Bahia type grasses.

DO NOT use on Bent grasses when air temperatures are above 80°F.

DO NOT use on new turf until after the third mowing.

Although one application may be sufficient if applied at weed seedlings stage, it may be necessary to effect repeat applications five to seven days apart for control of medium to mature weeds.

AMOUNT TO USE: Mix thoroughly before using.
