

[2860-25]

DIRECTIONS

Shake Gently Before Using

Hold can upright with opening in valve directed away from you and toward area to be treated. Press button to release spray. Hold container 2 feet from objects when spraying.

FLYING HOUSEHOLD INSECTS: Flies (including DDT resistant strains), Gnats, Mosquitoes, Fleas, Cats and dogs, downy mildew, whiteflies, scale insects, and fish. Then proceed to all parts of room with exception of plants and animals. For insects which do not fly, use spray liberally. Keep insects from re-infesting by re-spraying as soon as you see them.

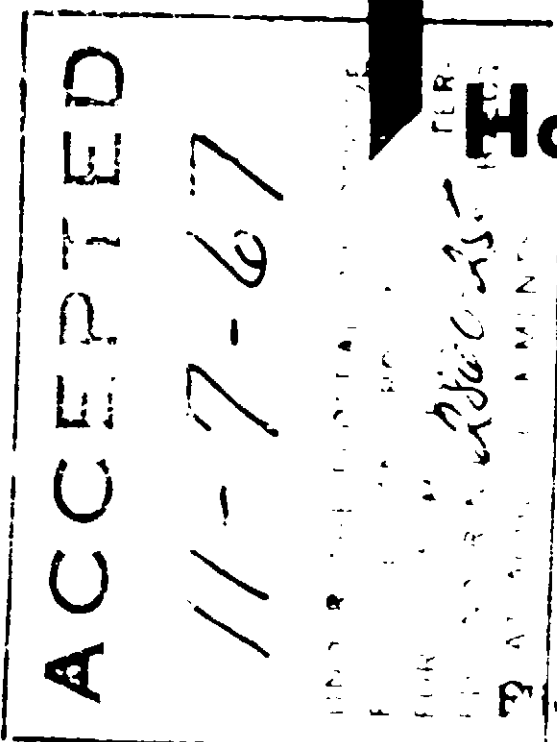

CRAWLING HOUSEHOLD INSECTS: (Roaches, silverfish, spiders, waterbugs, Japanese beetles, aphids, thrips, leaf hoppers, etc.) Apply liberally to all parts of room. For insects which do not fly, use spray liberally. For roaches, spray under appliances, in cracks, and in other hiding places. For silverfish, spray on walls, baseboards, and other places where they hide. For spiders, spray on corners, under furniture, and in other places where they hide. For waterbugs, spray on walls, baseboards, and other places where they hide. For Japanese beetles, spray on leaves and flowers. For aphids, spray on leaves. For thrips, spray on leaves. For leaf hoppers, spray on leaves.

CLOTHES MOTH AND CLOTH-FEEDING BEETLES: Spray on clothes, carpets, and other places where they hide. For clothes moths, spray on clothes. For clothes-feeding beetles, spray on carpets and other places where they hide.

GARDEN INSECTS: Japanese Beetles, Aphids, Mosquitoes, Fleas, Cats and dogs, downy mildew, whiteflies, scale insects, and fish. Then proceed to all parts of garden with exception of plants and animals. For insects which do not fly, use spray liberally. For Japanese Beetles, spray on leaves and flowers. For aphids, spray on leaves. For mosquitoes, spray on areas where they breed. For fleas, spray on areas where they breed. For cats and dogs, spray on areas where they breed. For downy mildew, whiteflies, scale insects, and fish, spray on areas where they live.
