CAUTION— Deep pile material such as fur, velvet, mohair, etc., should be treated by professional services since moistening may affect nap. Do not store in sunlight, near heat or open flame as the contents of this can are under pressure. Do not puncture container or throw into fire. Keep out of reach of children. Not to be used on humans, animals, food and food utensils. Before spraying, remove bird cages and fish bowls from room. Do not smoke while spraying and do not spray on plastics or asphalt tile. Avoid wetting fingers at nozzle as contact with propellant can cause frostbite. Avoid breathing spray mist and contact with skin. In case of accidental wetting of face, wash immediately with soap and water.

KEEP OUT OF REACH OF CHILDREN
 ACTIVE INGREDIENTS

Terpene hydrocarbons 91.00%

Petroleum distillates 91.00%

INERT INGREDIENTS

Propellant — 4.00%

100.00%

*Camphene, pinene and other related terpenes. Strobane

MOTH PROOFER

STAIN REMOVER

CAUTION: CONTENTS UNDER PRESSURE
KEEP OUT OF REACH OF CHILDREN
 (Read precautionary measures on back panel)

DO NOT TURN CAN UPSIDE DOWN WHILE SPRAYING!

IMPORTANT — USE AS DIRECTED TO OPERATE — Remove cap, then press valve button with finger.

MOTH PROOFER kills clothes moths and carpet beetles, their eggs and larvae. One thorough application of MOTH PROOFER will prevent moth damage for one year when used as directed. Use before storage and wet by direct spraying.

MOTH PROOFER — Bright, woven articles clean, renew and resist spots and stains by dry cleaning. Hold can 18 inches from article and spray evenly onto the surface until thoroughly moistened. Make sure folds, seams, cuffs, etc., are also treated. Do not overspray. Shake can occasionally. For best protection, spray insides of closets or storage containers before putting away treated articles. Air the moth-proofed article before using. If articles are washed or dry-cleaned, repeat application. Spray all folds and crevices where insects can hide and as they emerge, spray directly. Direct contact with MOTH PROOFER kills flying moths and carpet beetles.
