BUG - BLAST
INSECT SPRAY

DIRECTIONS FOR USE:
GENERAL:

Give premises good clean up, remove excess dust and spray thoroughly.

SPACE AND MIST SPRAYING

Use in any hand, pressure or electric sprayer. For space and mist spraying set sprayer to deliver fine spray and use liberally. When used in this manner, dosage usually works out to about 1 to 1½ pints for each 5,000 cu. ft. of space to remain undisturbed for a short while. For flies leave space closed about 10 minutes, then sweep up the dead flies and burrs. For cloth moth spray cracks and crevices and fabrics that are to be protected. Repeat if necessary every 30 days.

CONTACT SPRAYING

When using around food handling premises, either cover or remove exposed food and food handling utensils to avoid contamination. Use pressure sprayer with regular or medium nozzle adjustment. Spray around machines, cracks, crevices, behind shelving, in empty bins, anywhere insect may hide. For roaches, ants, and water bug direct spray on to insects and into cracks and crevices. Repeat as often as necessary.

ACTIVE INGREDIENTS 100%

Petroleum distillates	94.3
Technical Piperonyl Butoxide*	0.22
Pyrethrins	.11
N-octyl bicyclohexane dicarboximide	0.36

*Equivalent to 0.10% (Butylcarbityl) (5-propylpiperonyl) ether and 0.04 related compounds

Kills accessible stages of Mediterranean moth, Cadelle Beetle, Granary and Rice weevil, Grain and tobacco beetle, Indian Meal Moth, Roaches, Ants, Water-bugs, Mites, Flies.
