LYSTAD'S FLY SPRAY  
 FOR CATTLE & SWINE

**WARNING:**

May be fatal if swallowed, inhaled, or absorbed through skin. Keep away from heat and open flame. Keep container closed when not in use. Avoid prolonged or repeated skin contact. Avoid prolonged or repeated inhalation of spray mist. While applying in fogging operations wear protective clothing and a mask or respirator of a type passed by U.S. Department of Agriculture for DDVP protection. Avoid contamination of utensils, food, feed and water supplies. Wash thoroughly after using. If swallowed, induce vomiting immediately and get medical attention. Note to physician: Atropine is an antidote.

**KEEP OUT OF REACH OF CHILDREN**

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

**COMBUSTIBLE LIQUID**

Under no circumstances should this material be used in any way other than as directed on this label. Do not use in any way other than as directed on this label. Do not use in any way other than as directed on this label.

Do not reuse empty containers. Containers should be destroyed by perforating at the bottom and burning in a safe place.

Active Ingredients	By Weight
2, 2-Dichloroethyl Dimethyl Ether	0.93%
Pyrethrin	0.07%
Related Compounds	0.07%
Petroleum Hydrocarbons	99.93%
	100.00%

Contains 1.4% of Gross Insecticide

**DIRECTIONS**

Lystad's Fly Spray, containing Vapona Insecticide, is a multi-purpose formulation. It may be used as a direct spray on lactating dairy and beef cattle, swine, to control stable flies, house flies, horn flies, face flies, mosquitoes, gnats and fleas. It is also very effective as a fog and surface spray in animal buildings and milk sheds.

**DAIRY CATTLE AND BEEF ANIMALS** - Apply Lystad's Fly Spray as a mist with a good hand sprayer or automatic sprayer to kill flies on lactating dairy cattle or beef animals. Apply one to two fluid ounces of Lystad's Fly Spray and spray daily. Cover the animal with a spray, paying particular attention to the head, the back, the sides, the belly and legs. Apply the spray as a fog in the barn. Do not apply in excess of two fluid ounces per animal. For maximum results on adult animals, apply one ounce morning and night in a complete fly control program. This spray may also be used as a surface fog spray and surface spray together with the best trap and bait program available.

**SWINE** - Apply Lystad's Fly Spray as a mist with a good hand sprayer or automatic sprayer to kill flies on swine. Apply one to two fluid ounces of Lystad's Fly Spray and spray daily. Cover the animal with a spray, paying particular attention to the head, the back, the sides, the belly and legs. Apply the spray as a fog in the barn. Do not apply in excess of two fluid ounces per animal. For maximum results on adult animals, apply one ounce morning and night in a complete fly control program. This spray may also be used as a surface fog spray and surface spray together with the best trap and bait program available.

**HOUSE FLIES** - Apply Lystad's Fly Spray as a mist with a good hand sprayer or automatic sprayer to kill flies on house flies. Apply one to two fluid ounces of Lystad's Fly Spray and spray daily. Cover the animal with a spray, paying particular attention to the head, the back, the sides, the belly and legs. Apply the spray as a fog in the barn. Do not apply in excess of two fluid ounces per animal. For maximum results on adult animals, apply one ounce morning and night in a complete fly control program. This spray may also be used as a surface fog spray and surface spray together with the best trap and bait program available.

**MOSQUITOES** - Apply Lystad's Fly Spray as a mist with a good hand sprayer or automatic sprayer to kill mosquitoes. Apply one to two fluid ounces of Lystad's Fly Spray and spray daily. Cover the animal with a spray, paying particular attention to the head, the back, the sides, the belly and legs. Apply the spray as a fog in the barn. Do not apply in excess of two fluid ounces per animal. For maximum results on adult animals, apply one ounce morning and night in a complete fly control program. This spray may also be used as a surface fog spray and surface spray together with the best trap and bait program available.
