

SHEPARD'S WOOD PRESERVATIVE CREOSOTE

DIRECTIONS

Shepard's creosote is prepared for use on fence posts, poles, foundation timbers and heavy wooden members to delay the onset of rot and decay. Articles to be treated should be free of bark, dry and well-seasoned and immersed in the product for 12 to 48 hours. Frequent inspection and retreatment may be necessary to maintain control of decay and rot.

Do not use inside dairy barns, silos or other structures where it may contact food, feed or livestock.

"Do not reuse container. Destroy when empty."

"Do not contaminate water by cleaning of equipment or disposal."

WARNING

Cause skin irritation, accentuated by sunlight. Avoid contact with skin and clothing. Avoid breathing of vapor. Do not spray near an open fire.

CAUTION

KEEP OUT OF REACH OF CHILDREN

WARNING

"HARMFUL IF SWALLOWED"
