

DIRECTIONS: Use outdoors only. Do not use as a space spray. This container delivers a stream type spray, making it possible for the operator to stay back from the place sprayed. The spray acts fast when insects are hit directly.

Wasps, Hornets & Yellow Jackets: Spray infested areas such as under porches, eaves, doors and window frames. When spraying a nest, apply after dark when the insects have returned. Aim valve opening at nest and depress button, soaking the nest with the spray. Repeat as necessary.

Other Uses: For control of Ants, Clover Mites, Crickets, Earwigs, Millipedes, Sowbugs and Brown Dog Ticks. Spray infested areas thoroughly including outside surfaces of screen frames, doors, window frames, foundations, patios or other places where insects may enter or harbour. For ants, spray hills and runways. Repeat as necessary. Avoid wetting vegetation with this spray as it will be damaged.

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin or clothing. Wash thoroughly after using. Avoid contamination of food, utensils, food preparation areas and fish ponds. Avoid use near food or feed. Do not use on pets, humans or other animals. Do not use as a space spray. Use outdoors only.

To Physician: Atropine Sulfate is antidotal.

WARNING: Flammable! Do not use near open flame. Do not smoke while using. Contents under pressure. Exposure to temperature above 120° F. may cause container to burst. Do not puncture container.

ACTIVE INGREDIENTS:

Pyrethrins10%
*Piperonyl butoxide, technical20%
**N-octylbicycloheptene dicarboximide33%
***o-Isopropoxyphenyl methylcarbamate50%
Petroleum distillate	83.87%
INERT INGREDIENTS:	15.00%
Total	100.00%

*Equivalent to .16% (butylcarbityl) (6-propylpiperonyl) ether and .04% related compounds.
 **MGK 264, Insecticide Synergist.
 ***Baygon, U.S. Pat. No. 3,111,539.

Net Wt. 12 ounces
 EPA Reg. No. 2907-16
