MATT-KLEEN Disinfectant Cleaner (Fungicidal)

DIRECTIONS

Add two fl. oz. (60 cc) of Matt-Kleen disinfectant cleaner to one gallon of warm water and mix well. Apply with a cloth or mop and wet entire surface thoroughly, then wipe clean. No rinsing is required. For added convenience, a pump sprayer may be used; simply spray until thoroughly wet and wipe clean. For heavy soil or organic matter, a pre-cleaning step is recommended. Note: Be sure to follow dilution directions carefully. Changing the ratio of Matt-Kleen to water may reduce its effectiveness or cause damage to the surface being cleaned.

STORAGE AND DISPOSAL

Store in original container placed in locked storage area in a dry place no cooler than 50°F or warmer than 120°F. Do not reuse empty container. Wrap empty container and put in trash.

WARNING

Keep out of reach of children. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with generous amounts of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing. If swallowed, drink milk, egg white, or gelatin solution. If these are not available, drink large quantities of water. Call a physician.

MATT-KLEEN

Disinfectant Cleaner (Fungicidal)

Matt-Kleen disinfectant cleaner effectively removes blood, sweat and other body fluids from hard and semiporous surfaces to minimize cross contamination. It is designed for cleaning, disinfecting and sanitizing wrestling mats and pads, gymnastics mats, head gear and other contaminated equipment and surfaces.

Matt-Kleen may also be used to disinfect whirlpools, training rooms, locker rooms, showers, washrooms and other athletic facilities. When used as directed on inanimate hard surfaces, Matt-Kleen is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Pseudomonas aeruginosa*, *Streptococcus fecalis*, *Escherichia coli*, *Salmonella typhosa*, pathogenic fungi, *Trichophyton interdigitale* (athlete's foot fungus), Herpes simplex, influenza A₂, Adenovirus type 2 and Vaccinia viruses.
