DETERGENT SANITIZER

CL-427 DETERGENT SANITIZER is recommended for use on food processing equipment and utensils including dairy and brewery equipment and utensils. It is also recommended for use on dishes and glasses.

DIRECTIONS FOR USE

Prepare a sanitizing solution by dissolving 4-1/4 ounce or 8-1/2 ounce CL-427 DETERGENT SANITIZER per 10 gallons of water. This provides a solution containing 100 ppm or 200 ppm of available chlorine respectively. Clean and rinse items prior to sanitizing. Then place glasses, dishes, equipment or utensils in solution for 2 to 5 minutes. Remove, rinse with potable water and dry. For flat surfaces clean to remove gross filth and heavy soil. Then spread the sanitizing solution and allow to stand 2 to 5 minutes and then rinse with potable water.

The same solution may be used in feed tank, in immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional CL-427 DETERGENT SANITIZER should be added, to maintain a minimum concentration of 100 ppm available chlorine.

DETERGENT SANITIZER

ACTIVE INGREDIENTS

Sodium dichloro-s-triazinetrione dihydrate 5.6%
(Provides 3.2% available chlorine)
Sodium dodecylbenzene sulfonate 4.25%
Sodium Metasilicate 5.0%

INERT INGREDIENTS 85.15%

WARNING: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Causes eye irritation. May cause eye and skin damage. Do not get in eyes, on skin or on clothing. Do not breathe dust.

FIRST AID: If swallowed: feed gruel or cooked cereal followed olive oil or cooking oil. Call a physician. In case of personal contact: remove excess material and flush skin or eyes with fresh water for at least 15 minutes. For eyes get medical attention.

See side panel for use directions.

WARNING:

DIRECTIONS FOR STORAGE AND HANDLING

Store in a cool, dry, well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine containing gases. Oxidizing material: Do not mix with other chemicals. Contact with organic matter may cause fire. Decomposes at 350-475°F with liberation of harmful gases. In case of decomposition, if possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary.

Do not reuse empty container. Rinse empty container thoroughly with clean water before discarding.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

CL-427

DETERGENT SANITIZER

CL 427 DETERGENT SANITIZER is recommended for use on food processing equipment and other surfaces. It is a powerful detergent and sanitizer and is safe for use on plastic, metal, and glass.

DIRECTIONS FOR USE

Prepare a sanitizing solution by adding 1/2 ounce of CL 427 DETERGENT SANITIZER to 1 gallon of water. This provides a concentration of 100 ppm. Immerse the surface to be sanitized in the solution for 10 minutes. Rinse thoroughly with clean water to remove any residue.

The sanitizing solution may be used on all types of food processing equipment, including dishes, glasses, and other food contact surfaces. It is safe for use on plastic, metal, and glass. Do not use on natural stone or waxed surfaces. For more information, contact your local distributor.

DETERGENT SANITIZER

ACTIVE INGREDIENTS
Sodium decyl ether sulfonate 1.25%
(Precedes 32% available chlorine)
Sodium dodecyl ether sulfonate 1.25%

INERT INGREDIENTS

WARNING: KEEP OUT OF REACH OF CHILDREN

Highly flammable. Use in well-ventilated areas. May cause eye irritation. Avoid contact with skin. Wash thoroughly if contact occurs.

FIRST AID: If swallowed, do not induce vomiting. If inhaled, move to fresh air. If on skin, wash with water. If in eyes, flush with water for 15 minutes.

WARNING:

DIRECTIONS FOR STORAGE AND HANDLING

Store in a cool, dry, well-ventilated area. Containers may liberate irritating and potentially toxic gases. Oxidizing material. Contact with organic materials may cause fire. Decomposes at 350-475°F with the release of gases of decomposition. Do not store in areas where fire is likely to occur.

Use only in well-ventilated areas. Do not use in confined spaces. Do not use in areas where fire is likely to occur. Do not use in areas where food is prepared or stored. Do not use in areas where children play.
