Ms. Anne Downs
Senior Registration Specialist
Wilbur-Ellis Company
2903 S. Cedar Avenue
Fresno, CA 93725

Subject: Label Amendment – Updating expiration date on supplemental label
Product Name: Wilbur-Ellis Dusting Sulfur
EPA Registration Number: 2935-48
Application Date: 11/09/2015
Decision Number: 511099

Dear Ms. Downs:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

KEEP OUT OF REACH OF CHILDREN CAUTION

- This Supplemental Labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions and precautions on the EPA-registered label.
- It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Before using Wilbur-Ellis Dusting Sulfur in accordance to this Supplemental Label, read and follow all applicable directions, restrictions, and precautions, on the package label. This Supplemental Labeling contains revised Use Precautions that are different from those that appear on the package label.

DIRECTIONS FOR USE

USE PRECAUTIONS

Do not make applications [of this product] within 2 weeks of an oil spray unless specified otherwise, for the individual crop, in the CROPS AND APPLICATION RATES section (see Citrus). Sulfur may burn foliage and fruit on sensitive varieties if applied when temperatures exceed 90° F or during periods when the temperatures within 3 days after application are expected to exceed 90° F in the treated area.
