WASHINGTON, D.C. 20460

JAN 14 1994

OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

Joanne Pratt
WILBUR ELLIS CO.
191 W. Shaw Avenue
Fresno, CA 93704

Subject: Label Amendment Submission of 09/10/93 in Response to PR Notice 93-7
EPA Reg. No. 2935-359
WILBUR-ELLIS PHOSPHAMIDON 8 SPRAY (INSECTICIDE)

IMPORTANT NOTICE: This Letter Requires You to Submit a Notification to the Office of Compliance Monitoring within 20 Days.

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is accepted subject to the comments listed on the enclosed sheet. A copy of your proposed labeling stamped "ACCEPTED WITH COMMENTS" is enclosed.

SERIOUS ERROR(S) ON SUBMITTED LABELING:

EPA has determined that one or more of the errors on the labeling you submitted to the Agency is categorized as "serious" as defined in PR Notice 93-11. In general, serious errors are those that may create a potential for harm to workers, handlers, other persons, or the environment; or those that prevent the achievement of the basic goals of the Worker Protection Standard (WPS) or FIFRA.

YOU MUST NOT SELL OR DISTRIBUTE (INCLUDING RELEASE FOR SHIPMENT) ANY PRODUCT BEARING THE SUBMITTED LABELING. Sale or distribution of any product with the incorrect labeling is a violation of FIFRA that could result in initiation of an action for civil penalties and/or cancellation of your product. This matter has been referred to the Office of Compliance Monitoring (OCM) for further action.

YOU MUST SUBMIT A NOTIFICATION TO THE OFFICE OF COMPLIANCE MONITORING WITHIN 20 DAYS OF THE DATE OF THIS LETTER.

Recycled/Recyclable
Printed with Soy/Candle Ink on paper that
contains at least 50% recycled fiber

Each notification must include the following information:

1. Registrant's name and address.
2. EPA Registration number of the product for which the labeling was submitted.
3. Whether any product already has been sold or distributed (this includes released for shipment) bearing the submitted labeling.

In addition, the notification must include the following information, IF you have already sold or distributed any product bearing the submitted labeling:

1. Quantity of the product that has been sold or distributed.
2. EPA Producing Establishment number.
3. Location of the product, if known.
4. Proposed plan for assuring that product with the incorrect labeling in your control, as well as that in the hands of dealers/distributors/users, will be corrected. The plan must include your proposal for assuring that the labeling is corrected as soon as possible.

Submit the notification to:

Michael Wood, Director
Compliance Division, (7203)
Worker Protection Notification
Office of Compliance Monitoring
U.S. Environmental Protection Agency
401 M Street SW
Washington, DC 20460

Failure to submit a notification also may result in initiation of an action under FIFRA for civil penalties, if you sold or distributed (this includes released for shipment) product bearing the incorrect labeling.

IN ADDITION, YOU SHOULD CONTACT IMMEDIATELY THE PERSONS TO WHOM YOU SOLD OR DISTRIBUTED YOUR PRODUCT AND INFORM THEM NOT TO SELL OR DISTRIBUTE ANY PRODUCT WITH THE INCORRECT LABELING.

WHAT THIS ACCEPTANCE MEANS:

Based on your certification, the Agency has accepted the labeling changes that are necessary to comply with the WPS labeling requirements of 40 CFR part 156, subpart K, described in PR Notices 93-7 and 93-11. Any other labeling changes submitted in connection with this amendment application but not directly related to compliance with the WPS have neither been reviewed nor accepted by the Agency. If you wish to make such changes, you must submit a separate amendment application proposing them. If your product is currently suspended, the acceptance of this labeling amendment does not affect the suspension in any way.

WHAT YOU NEED TO DO NEXT:

Submit the required notification. Then by the next label printing make all the specified changes to your labeling. Send to EPA one (1) copy of the final printed labeling:

- **BEFORE** selling or distributing any product bearing the final printed labeling as amended

AND

- **WITHIN** one year from date of this acceptance.

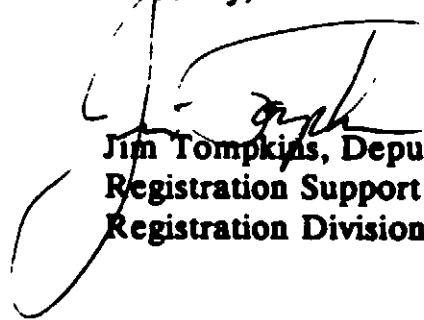

Submit the final printed labeling via the U.S. Postal Service to:

**Document Processing Desk (FIN-LABEL)
 Office of Pesticide Programs (7505C)
 U.S. Environmental Protection Agency
 401 M Street, SW
 Washington, D.C. 20460-0001**

Hand or courier deliveries of final labeling may be made to:

Document Processing Desk (FIN-LABEL)
Office of Pesticide Programs
Room 266A, Crystal Mall 2
1921 Jefferson Davis Highway
Arlington, VA 22202

Sincerely,

Jim Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

cc: Office of Compliance Monitoring

PRECAUTIONARY STATEMENTS

HUMANS — DANGER: Poisonous if swallowed, inhaled or absorbed through skin. Rapidly absorbed through eyes, on skin or on clothing. Wear a mask or respirator of a type suitable for protection against phosphamidate. Wear natural rubber gloves, protective clothing and goggles. In case of contact, wash immediately with soap and water. Wash hands, arms and face thoroughly with soap and hot water before re-use. Keep all unprotected persons out of vicinity where there may be danger of drift.

Swallowed — Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger or blunt knife. Do not give anything by mouth to an unconscious person. Get medical attention. Note to Physicians — Phosphamidate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with Atropine. **On Skin —** Remove clothing and immediately wash skin with soap and water. Get medical attention. **In Eyes —** Flush eyes with water. Get medical attention. **Inhaled —** Move to fresh air. Get medical attention.

Do not apply in such a manner as to directly or through drift expose workers or other persons. The area being treated should be vacated by unprotected persons.

ENVIRONMENTAL HAZARDS

Under conditions involving possible drift to food, forage or other plantings that might be damaged or the crops unfit for sale, use or consumption.

Apply to Apple Trees, Peaches, Plums or Sweet Cherries as injury may occur. Avoid drift to these varieties.

Toxic to aquatic invertebrates and wildlife. For terrestrial uses, do not apply directly to water, or to areas where water is present or to intertidal areas below the mean high water mark. Runoff and drift from treated areas may cause aquatic organisms in adjacent aquatic sites. Do not contaminate water by cleaning of equipment or disposal.

Slightly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product to drift to blooming crops or weeds if bees are visiting the treatment areas.

CHEMICAL AND PHYSICAL HAZARDS

Avoid contact with heat and open flame.

DIRECTIONS FOR USE

Read label carefully. Do not use this product in a manner inconsistent with its labeling. Refer to attached labeling. (See insert for Directions for Use).

WORKER SAFETY & PROTECTIVE CLOTHING

WHEN WEARING THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT DURING MIXING/LOADING, APPLICATION, DISPOSAL OF THE PESTICIDE, AND EARLY REENTRY INTO TREATED AREAS: Protective clothing covering all parts of the body except head, hands and feet; chemical-resistant gloves; chemical-resistant apron; and goggles. During equipment repair and cleaning, the protective clothing must be worn. If overhead exposure is likely, such as when flagging during aerial application, a hood or hat must be worn.

IF PERFORMED USING AN ENCLOSED CAB OR COCKPIT, THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT MAY BE WORN AS AN ALTERNATIVE: Long-sleeved shirt and long-legged pants; shoes and socks. Protective gloves must be available in the cab or cockpit and must be worn during entry to and exit from the applicator. Protective clothing and equipment required for use during application must be available in the cab and must be worn when exiting the cab into treated areas. When used for this purpose, contaminated clothing may not be brought into the cab or stored in an enclosure such as a plastic bag.

When pesticide comes in contact with skin, wash off with soap and water. Always wash hands, face and arms before eating, drinking or toileting.

After removing gloves, wash them with soap and water. Take off all work clothes and shoes. Shower using only clean clothes when leaving job — do not wear contaminated clothing. Personal and protective clothing work must be laundered separately from household articles. Store protective clothing separately from household laundry. Protective clothing after each use. Protective clothing and equipment that becomes soiled or damaged must be destroyed according to State and local regulations. HEAVILY CONTAMINATED CLOTHING CANNOT BE ADEQUATELY DECONTAMINATED.

RESTRICTED USE PESTICIDE

Due to Acute Dermal Toxicity to Humans and Residue Effects on Avian Wildlife
For retail sale to and use only by certified applicators or persons under their direct supervision only for those uses covered by the certified applicator's label.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS — DANGER: Poisonous if swallowed, inhaled or absorbed through skin. Rapidly absorbed through skin. Do not get in eyes, on skin or on clothing. ~~Wear a mask or respirator of a type suitable for protection against phosphamidon fumes. Wear protective gloves, protective clothing and goggles. In case of contact, wash immediately with soap and water. Wash hands, arms and face thoroughly with soap and hot water before use. Keep all unprotected persons out of spraying areas or vicinity where there may be danger of drift.~~

ANTIDOTE: If Swallowed — Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger or blunt object. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention. Note to Physicians — Atropine is antidotal. 2-PAM is also antidotal and may be administered in conjunction with Atropine. If on Skin — Remove contaminated clothing and immediately wash skin with soap and water. Get medical attention. If in Eyes — Flush eyes with plenty of water. Get medical attention. If Inhaled — Move to fresh air. Get medical attention.

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

ENVIRONMENTAL HAZARDS

Do not apply under conditions involving possible drift to food, forage or other plantings that might be damaged or the crops thereof rendered unfit for sale, use or consumption.

Do not use on Maple Trees, Peaches, Plums or Sweet Cherries as injury may occur. Avoid drift to these varieties.

This pesticide is toxic to aquatic invertebrates and wildlife. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff and drift from treated areas may be hazardous to aquatic organisms in adjacent aquatic sites. Do not contaminate water by cleaning of equipment or disposal of wastes.

This pesticide is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this pesticide or allow it to drift to blooming crops or weeds if bees are visiting the treatment areas.

CHEMICAL AND PHYSICAL HAZARDS

Flammable. Keep away from heat and open flame.

Replace with D **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use only according to attached labeling. (See insert for Directions for Use).

WORKER SAFETY & PROTECTIVE CLOTHING

USE ONLY WHEN WEARING THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT DURING MIXING/LOADING, APPLICATION, DISPOSAL OF THE PESTICIDE, AND EARLY REENTRY INTO TREATED AREAS: Protective suit of one or two pieces covering all parts of the body except head, hands and feet; chemical-resistant gloves; chemical-resistant boots. In addition, mixer/loaders must wear a chemical-resistant apron. During equipment repair and cleaning, the protective suit need not be worn. If overhead exposure is likely, such as when flagging during aerial application, a hood or wide-brimmed hat must be worn.

IF APPLICATION IS PERFORMED USING AN ENCLOSED CAB OR COCKPIT, THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT MAY BE WORN AS AN ALTERNATIVE: Long-sleeved shirt and long-legged pants; shoes and socks. Chemical-resistant gloves must be available in the cab or cockpit and must be worn during entry to and exit from the application vehicle. All other protective clothing and equipment required for use during application must be available in the cab and must be worn when exiting the cab into treated areas. When used for this purpose, contaminated clothing may not be brought back into the cab unless in an enclosure such as a plastic bag.

IMPORTANT!!! Pesticide comes in contact with skin, wash off with soap and water. Always wash hands, face and arms with soap and water before smoking, eating, drinking or toileting.

AFTER WORK: Before removing gloves, wash them with soap and water. Take off all work clothes and shoes. Shower using soap and water. Wear only clean clothes when leaving job — do not wear contaminated clothing. Personal and protective clothing worn during work must be laundered separately from household articles. Store protective clothing separately from personal clothing. Clean or launder protective clothing after each use. Protective clothing and equipment that becomes heavily contaminated or drenched must be destroyed according to State and local regulations. **HEAVILY CONTAMINATED OR DRENCHED CLOTHING CANNOT BE ADEQUATELY DECONTAMINATED.**

RE-ENTRY INTERVAL

Re-entry into treated areas is prohibited for 48 hours after the end of application, unless the protective clothing on this label for early entry is worn.

FOR EARLY RE-ENTRY INTO TREATED AREAS: Use protective suit or one-piece coveralls covering all exposed body, head, hands and feet; chemical-resistant gloves; chemical-resistant shoes (or chemical-resistant boots).

RE-ENTRY STATEMENT

Do not enter treated areas without protective clothing until 48 hours after the end of application. Because of the more restrictive re-entry intervals for various crops treated with this product, consult your State Extension Office for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area adjacent to a treated area with this product. Oral warnings should specify protective clothing (see above), areas or fields that cannot be entered, period of time area is to be vacated, and statement of practical treatment (see above). In case of oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings given if there is reason to believe that written warnings cannot be understood by workers. Warnings must include the following information: "Danger. Area treated with Phosphamidon on (date of application). Do not enter without protective clothing until 48 hours after the end of application. (insert here actions to take in case of accidents above)."

DIRECTIONS FOR USE (cont.)

NOT FOR USE OR STORAGE IN OR AROUND THE HOME.

STORAGE AND DISPOSAL

1. Prohibitions: Do not contaminate water, food or feed by storage or disposal.
2. Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at EPA Regional Office for guidance.
3. Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose in a sanitary landfill, or by other procedures approved by state and local authorities.
4. Storage: Store in original container only and keep sealed. Store in closed storage areas. Use caution opening, closing or pouring. Store in a cool, dry place.

Do not use this product through any type of irrigation system.
Contains phosphamidon manufactured by Ciba-Geigy Corp.

NOTICE: The statements made on this label are believed to be true and accurate, but because of conditions which are beyond our control, WILBUR-ELLIS COMPANY does not make, nor does it authorize any representative to make, any warranty, guaranty or representation, expressed or implied, concerning the use thereof, except in conformity with the statements on the label. Neither WILBUR-ELLIS COMPANY shall be held responsible in any manner for any personal injury or property damage or loss resulting to the other person from handling, storage or use of this material, not in accordance with directions. It assumes all risk and liability resulting from improper handling, storage or use and accepts and uses these conditions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLES (Non-Bearing Only): Leafhoppers, Green and Rosy Apple Aphids — 1/4 pt. per acre in 100 gals. of water. Repeat at 14-21 day intervals. **PRECAUTION:** Do not direct spray or allow spray to drift onto pear, stonefruit or bearing apple trees. Do not apply to non-bearing apple trees, if they are under moisture stress. Do not use within 30 days of harvest.

POTATOES: Aphids, Colorado Potato beetles, Leafhoppers, Leafminers, Flea Beetles, Stinkbugs — 1/2 pt. per acre in water to cover by ground application (1 to 5 gals. by air). Repeat as necessary. Do not apply within 14 days of harvest.

COPY B

**Personal Protective Equipment
Applicators and other handlers must wear:**

- A) Coveralls over long sleeved shirt and long pants.
- B) Chemical-resistant gloves such as Barrier Laminate, Butyl Rubber ≥ 14 mils
Nitrile Rubber ≥ 14 mils, *Neoprene Rubber* *214 mils*
- C) Chemical-resistant footwear plus socks.
- D) Protective eyewear.
- E) Chemical-resistant headgear for overhead exposure.
- F) Chemical-resistant apron when cleaning equipment, mixing or loading.
- G) A respirator with either an organic vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval prefix TC-23C), or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G).

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

COPY D

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURE USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontaminations, notification, and emergency assistance. It also contains specific instructions, and exceptions pertaining to protective equipment (PPE). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

missing language

Do not enter or allow workers entry into treated areas during the restricted entry interval (REI) of 48 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- A) Coveralls over long sleeved shirt and long pants
- B) Chemical-resistant gloves such as Barrier Laminate, Butyl Rubber \geq 14 mils, Nitrile Rubber \geq 14 mils, *Necprene Rubber \geq 14 mils.*
- C) Chemical-resistant footwear plus socks
- D) Protective eyewear
- E) Chemical-resistant headgear for overhead exposure.

COPY F

Personal Protective Equipment

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category C on an EPA Chemical resistance category selection chart.

Barrier Laminate
Butyl Rubber ≥ 14 mils
Nitrile Rubber ≥ 14 mils
Neoprene Rubber ≥ 14 mils

COPY H**User Safety Recommendations:****Users should:**

- * Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- * Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- * Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

COPY I

Si usted no entiende la etiqueta,
busque alguien para que se la
explique a usted en detalle (If
you do not understand the label
find someone to explain it to
you in detail).

COPY J**Engineering Controls Statements**

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240 (d) 4-6), the handler PPE requirements may be reduced or modified as specified in the WPS.
