INSECT

RED-TOP

BT 320 DUST

(BACILLUS THURINGIENSIS)

NOTIFICATION LABEL NOT REVIEWED PER PR NOTICE 80-3

DATE: 8/3/93

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RE-ENTRY STATEMENTS

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

Do not enter treated areas without protective clothing until dust has settled. Because certain states may require more restrictive re-entry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. Oral warnings should specify protective clothing, areas or fields that cannot be entered without this clothing, period of time area is to be vacated, and statement of practical treatment in case of exposure. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Warnings must include the following information: "Caution: Area treated with BT 320 Dust on (date of application). Do not enter without appropriate protective clothing until dusts have settled. (Insert here action to take in case of accidental exposure.)"

ACTIVE INGREDIENTS:

Bacillus thuringiensis subspecies berliner
Lepidopteran active toxin(s)

INERT INGREDIENTS

Potency: 145 million International Units per pound of this product. Potency units shall be adjusted use rates beyond those specified in the Directions for Use section.

EPA Reg. No. 2935-398-AA

KEEP OUT OF REACH OF CHILDREN CAUTION

ENVIRONMENTAL HAZARDS

Do not contaminate water when disposing of equipment washwaters.

RECOMMENDATIONS (cont.)

STORAGE AND DISPOSAL

1. Prohibitions: Do not contaminate water, food or feed by storage or disposal.
2. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
3. Container Disposal: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary land fill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
4. Storage: Store in original container only and keep sealed. Store in closed storage areas. Use caution when moving, opening, closing or pouring. Store in cool place.

Apply recommended amounts when air is calm, using ground equipment, aircraft or hand duster. Apply at first sign of infestation and repeat at weekly intervals when needed to maintain control. Good underleaf coverage is essential since the insect must ingest BT 320 Dust. After eating BT 320 Dust, some insects stop feeding but may ultimately appear to be unaffected for several days. Use the higher recommendations against very heavy infestations, or where it is difficult to obtain good coverage due to tank leakage. BT 320 Dust is exempt from tolerance requirements, and may be applied in recommended amounts up to the day of harvest.

RECOMMENDATIONS

Thorough coverage essential when using BT 320 Dust.

**IN CASE OF EMERGENCY,
CALL CHEMTREC: (800) 424-9300**

Crop	Pest
BROCCOLI	Cabbage looper Imported cabbageworm
CABBAGE	Cabbage looper Imported cabbageworm
CAULIFLOWER	Cabbage looper Imported cabbageworm
CELERY	Cabbage looper
COLLARDS	Cabbage looper Imported cabbageworm
COTTON	Tobacco budworm Cotton Bollworm Cabbage looper
GRAPES	Grape Leaf Folder Start treating as soon as possible after hatching and before larvae are protected. Apply by ground equipment to obtain thorough coverage of leaf surfaces. For OMNIVOROUS LEAF ROLLER and GRAPE LEAF FOLDER with a scheduled 6 applications apply 12.5 to 25 lbs. per acre for each application.
GRAPES (California)	Omnivorous Leaf Roller
KALE	Cabbage looper Imported cabbageworm
LETTUCE	Cabbage looper
MELONS	Cabbage looper
MUSTARD GREENS	Cabbage looper Imported cabbageworm
POTATOES	Cabbage looper
SPINACH	Cabbage looper
TOMATOES	Cabbage looper Tomato Hornworm
TURNIP GREENS	Imported cabbageworm

"For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark."
