

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

DANGER

Corrosive. Causes severe eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg white, or gelatin solution. Then induce vomiting with one or two glasses of water and place a finger down the throat. Do not give anything orally to an unconscious person.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

NOTICE: The statements made on this label are believed to be true and accurate, but because of conditions of use which are beyond our control, WILBUR ELLIS COMPANY does not make, nor does it authorize any agent or representative to make, any warranty, quantity or representation, express or implied, concerning this material or the use thereof, except in conformity with the statements on the label. Neither WILBUR ELLIS COMPANY nor its agents will be responsible in any manner for any damage, injury or property loss resulting from the use of this material, or from handling, storage, or disposal of this material, not in accordance with the label. The buyer assumes all risk and liability resulting from improper handling, storage, use, and disposal and uses this material at their own risk.

NU-FLOW ND

ACTIVE INGREDIENTS:		By Wt.
Chloroneb (1, 4-dichloro-2, 5-dimethoxybenzene)		23.5%
2-(thiocyanomethylthio) benzothiazole *		9.0%

GENERAL INFORMATION

NU-FLOW ND is recommended for use at time of planting as a seed treatment to protect against seed and seedling rot, damping off, scab, blight, cottony, Phythium, and other diseases impairing good seed germination and seedling development of cotton. NU-FLOW ND is a ready-to-use flowable that can be pumped or poured directly into the cotton seed treater.

Label Treated Seed: This seed is treated with NU-FLOW ND fungicide. Do not use for food, feed, oil production or any other purpose except planting. Add appropriate information for any other chemical treatment.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Pesticide, spray, mixture, or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Reseal container and offer for reconditioning, or triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill, or bury in a safe place. Consult Federal, State or Local Disposal Authorities for approved alternative procedures.

COTTON SEED TREATMENT

Apply 14.5 to 19.4 fluid ounces of NU-FLOW ND per 100 lbs. of cotton seed.

NU-FLOW ND may be diluted with water provided the recommended amount of product is applied.

Do not use in a manner that will contaminate feed or feedstuffs.
