

ATTACHMENT I

A: ACTIVE INGREDIENTS:

|                                                                                                                   |                |
|-------------------------------------------------------------------------------------------------------------------|----------------|
| Tetramethrin [(1-Cyclohexene-1,2-dicarb-oximido) methyl 2,2-dimethyl-3(2-methylpropeny) cyclopropanecarboxy-late] | 0.050%         |
| + N-octyl bicycloheptane dicarboximide                                                                            | 0.400%         |
| * Chlorpyrifos [0,0-diethyl 0 (3,5,6-trichloro 2-pyridyl) phosphorothioate]                                       | 0.500%         |
| INERT INGREDIENTS                                                                                                 | 99.050%        |
| Total                                                                                                             | <u>100.00%</u> |

+ MGK 246, Insecticide Synergist
