PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS
(& DOMESTIC ANIMALS)**

CAUTION

KEEP OUT OF REACH OF CHILDREN

To prevent skin irritation, wash exposed parts thoroughly with soap and warm water. Harmful if swallowed.

ENVIRONMENTAL HAZARDS

Copy A

Fish and other aquatic life may be killed by this product. ~~Do not apply directly to water.~~ Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

Pour recommended amount of this material into nearly filled spray tank containing water. Keep agitator running during filling, mixing, and spraying operations. Do not allow mixture to stand. To prevent separation of oil and water mixture, spray mixture must be agitated while using. To be effective, complete coverage is essential, necessitating thorough application to inside and outside of tree.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use but neither this warranty nor any other warranty or merchantability or fitness for a particular purpose expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

RE-ENTRY

Do not enter treated areas until spray has dried unless appropriate protective clothing is worn.

Because certain states may require more restrictive re-entry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to worker who are expected to be in a treated area or in an area about to be treated with this product. (Indicate specific oral warnings which inform workers of areas or fields that may not be entered without specific protective clothing, period of time field must be vacated and appropriate actions to take in case of accidental exposure).

When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information: "Caution" Area treated with Citri-Oil on (date of application). Do not enter without appropriate protective clothing until spray has dried.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not store in or around the home. Store in a secure, dry and temperate area. Store only in original container. Keep away from heat, sparks or open flame. In case of spill or leak, soak up with an absorbent material, such as clay, sand, sawdust or sweeping compound. Place in drum, label contents and dispose of according to the instructions below in PESTICIDE DISPOSAL.

PESTICIDE DISPOSAL:

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

1. METAL (all sizes)

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

2. PLASTIC

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerator, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

3. GLASS

Triple rinse (or equivalent). Then dispose of in a sanitary landfill or by other approved State and local procedures.

RECOMMENDATIONS

SPRING OR SUMMER SPRAY

CITRUS: For control of armored scales such as Florida red scale, California red scale, chaff scale and purple scale, white flies (intermediate forms), Texas citrus mite and citrus red mite — apply 5 - 8 gallons of Tide Citri-Oil per acre. Do not apply within 30 days before or after application of sulfur. Do not apply to trees that are under moisture stress. Do not apply during periods of excessive high temperatures (above 90° F) or periods of low relative humidity (20%).

DORMANT SPRAY

PEACHES & PLUMS: For control of San Jose scale and white peach scale apply 3-4 gallons of Tide Citri-Oil per 100 gallons of water. Apply during dormancy when temperature is between 50° - 70° F. In case of very severe scale infestation, two applications may be needed. Make the first application soon after dormancy begins. Wait at least six weeks and check for live scale; if present, make a second application. Best results will be obtained if temperature is above 60° and the sun is shining at the time of application, but buds are not yet burst to any extent.

PECANS: For control of obscure scale, apply 3-3½ gallons of Tide Citri-Oil per 100 gallons of water. Application should be made during tree dormancy and when temperature is between 50° - 70° F.
