Ms. Joanne C. Pratt Wilbur-Ellis 191 W. Shaw Avenue, Suite 107 Fresco, CA 93704-2876

Dear Ms. Pratt:

Subject: Amendment - Revised Labeling and Confidential Statement

of Formula

Garmasan Insecticide-Fungicide Hopper Box Seed Treatment

EPA Registration No. 2935-464

Your Letter Dated September 23, 1992

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. Under Environmental Hazards section, revise the statement "Do not contaminate water by cleaning of equipment or disposal of wastes." with the following statement:

Do not contaminate water when disposing of equipment washvaters.

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

In reference to the Confidential Statement of Formula dated October 29, 1991, submitted in this package, we noted that you have corrected the total weight to be 1000. A copy has been placed in the subject record file.

Sincerely yours,

George T. LaRocca Product Manager 13 Insecticide-Rodenticide Branch Registration Division (H7505C)

VACUUM PLANTERS: Four 50 pounds of meed into the plastic box. Pour enough Gammssan on top of the seed to treat 50 pounds of seed. Mix thoroughly with an axe handle or paddle until meed is uniformly covered. Then add any plantability additive at the recommended rate to improve the seed flowability (talc etc.). Mix thoroughly once more with a paddle or axe handle to get uniform coverage. This process will provide the best seed flow through the planter while providing all the benefits of a seed treatment product.
