## STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush with plenty of water. Call a physician.  
IF SWALLOWED: Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention. Note to Physician: This product contains a petroleum distillate.  
IF ON SKIN: Wash with plenty of soap and water.

## PRECAUTIONARY STATEMENTS

HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Causes irreversible eye damage. Harmful if swallowed or inhaled. Do not get in eyes. Wear goggles or a face shield when handling. Avoid contact with skin and clothing. Remove and separately launder clothing before reuse. Wash with soap and water after handling and before eating, drinking or smoking.

## ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not clean equipment or dispose of equipment washwaters in a manner that will contaminate water resources. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Exposed treated seeds may be hazardous to birds and other wildlife. In the event that treated seeds are spilled and cannot be salvaged, completely cover them with soil. Dispose of all excess treated seeds by burial away from bodies of water.

## PRODUCT INFORMATION

AGROSOL Flowable is a seed treatment fungicide specially prepared for commercial seed treatment. When used at the correct dosage rate, AGROSOL Flowable will protect soybean and wheat seeds from soil and seed-borne diseases that cause damping-off, seed decay and seedling blights. The systemic action of the thiabendazole present in AGROSOL Flowable will suppress pod and stem blight (*Phomopsis* spp.) of soybeans during germination and early seedling stages. In wheat, AGROSOL Flowable suppresses seed-borne infections of scab and common bunt (stinking smut) during seed germination and early seedling stages.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on agricultural establishments in hopper-box, planter box, slurry box or other seed treatment application at or immediately before planting.

ALWAYS READ THE ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH ALL APPLICABLE STATE AND FEDERAL REGULATIONS.

SHAKE OR STIR WELL BEFORE USING. Use at temperatures above 40°F.

SOYBEANS: Use AGROSOL Flowable in liquid and slurry treaters at the rate of 1.5 fl. oz. per bushel of soybean seed (2.5 fl. oz. per 100 lbs. of soybean seed).

WHEAT: Use AGROSOL Flowable in liquid and slurry treaters at the rate of 1.5 fl. oz. per bushel of wheat seed (2.5 fl. oz. per 100 lbs. of wheat seed).

Always use AGROSOL Flowable with an EPA-approved dye or colorant that imparts an unnatural color to the seed.

Avoid contamination of feed, food and foodstuffs. Do not allow livestock to graze or feed on treated green wheat forage. Do not graze or feed treated soybean vines or hay to livestock. Do not tank mix or apply in combination with copper fungicides.

Treated seed must not be used for or mixed with food or animal feed, or processed for oil. Seed commercially treated with AGROSOL Flowable must be labeled in accordance with all applicable requirements of the Federal and State seed laws.

Mixers/loaders when mixing and loading this product must wear a long-sleeved shirt and long pants or a coverall that covers all parts of the body except the head, hands and feet. Wear chemical resistant gloves, goggles or a face shield and a chemically resistant apron.

AFTER WORK: Take off all clothes and shoes. Shower using soap and water. Do not wear contaminated clothing. Wash protective clothing and equipment with soap and water after each use. Personal clothing worn during use must be laundered separately from household articles. Clothing and protective equipment heavily contaminated or drenched with captan must be destroyed according to State and local regulations.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store above 32°F. Product stored at a lower temperature will reconstitute to satisfactory utility if warmed to approximately 70°F and thoroughly shaken or stirred before use. Store treated seed in a ventilated place away from water, food and feed.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
