

FIELD INSTRUCTIONS

PANTHER JUCE can be used in any type of spray. Fill the spray tank with water and add the PANTHER JUCE concentrate. Mix thoroughly and apply.

For best results PANTHER JUCE can be prepared by mixing with water in a ratio of 1 part of PANTHER JUCE to 100 parts of water. Apply to the spray tank and the nozzle.

Do not use PANTHER JUCE in areas where it will be applied to water. Do not use PANTHER JUCE in areas where it will be applied to water.

DIRECTIONS FOR USE

COTTON: Directed Spray Application

Mix 1 pint PANTHER JUCE in 10 gallons of water. Apply 40 gallons of this mixture per acre. Thorough coverage of weeds and grasses is absolutely necessary for best results. Apply directly to the weeds and grasses. Do not spray on cotton foliage. Apply only to weeds and grasses. Do not spray on cotton foliage.

Band Treatment:

Mix 1 pint PANTHER JUCE in 10 gallons of water. Apply 40 gallons of this mixture per acre. Thorough coverage of weeds and grasses is absolutely necessary for best results. Apply directly to the weeds and grasses. Do not spray on cotton foliage. Apply only to weeds and grasses. Do not spray on cotton foliage.

NON CROP:

PANTHER JUCE is used for controlling Johnson grass, nut grass, water grass, goose grass and similar weeds in roads, water ways, rights-of-way, storage yards and other areas. Mix at a rate of 5 pint PANTHER JUCE in 10 gallons of water. No additional surfactant is required. Spray the unwanted vegetation directly to the point of runoff. Any spray equipment that is registered for use may be used. If not, use a backpack sprayer.

DO NOT CONTAMINATE WATERS USED FOR DRINKING, IRRIGATION OR BY ANIMALS, WILDLIFE AND AQUATIC LIFE OR WATER USED FOR IRRIGATION PURPOSES OR WHERE SHEEP ARE FOUND.
