As A Space Spray To Control Flies and Flying Moths: For use in fogging installations in Food Plants, Warehouses and Vestibule Areas. Apply with compressed air sprayers for fogging devices such as Microsol Units, Dyna-Fog Insecticide Applicators, Electric Foggers, Steam Atomizing Units and Insectojet Nozzles.

Close all windows, doors and openings during fogging operation. Keep closed for 10-20 minutes after application. Repeat treatment when necessary.

Follow directions and recommendations of equipment manufacturer for proper setting and position of fogging machine.
