# PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS **CAUTION** KEEP OUT OF REACH OF CHILDREN

Irritant to eyes. May cause irritation to the throat and skin. Avoid breathing vapors. Do not get in eyes, on skin, or on clothing. In case of contact, immediately flush with copious amounts of water. When applying in enclosed areas, wear a mask or respirator of a type passed by the U.S. Bureau of Mines for Woodfume<sup>®</sup> protection. Do not store near food or feed. Keep children and pets out of treated areas.

## ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water or wetlands. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this product only as specified on the label. In case of emergency, immediately call 1-800-4-A-GRASS (937-124-9300) Chemtrec.

## STORAGE AND DISPOSAL

- PROHIBITIONS:** Do not contaminate water, food, or feed by storage or disposal.
- STORAGE:** Do Not Store Between 0°F and 32°F; crystallizes at lower temperatures. Warm or store at higher temperatures and melt before dissolve crystals and assure uniformity before use.
- PESTICIDE DISPOSAL:** Wash and rinse from the use of this product may be disposed of in a sewer at a public sewer treatment facility.
- METAL DISPOSAL:** This product is not a metal. It is a wood preservative.
- PLASTIC:** This product is not a plastic. It is a wood preservative.

## USE PRECAUTIONS

READ ALL DIRECTIONS BEFORE USING. Apply to wood as directed. Do not use on metal. Keep children and pets away from treated wood. Do not use on painted wood. Keep container tightly closed when not in use. This product is for outdoor use only. As specified on this label.

# WOODFUME<sup>®</sup>

## A Fungicidant for Controlling Decay and Insects in Wood Poles

**ACTIVE INGREDIENT:** Sodium methyldithiocarbamate (Anhydrous) 32.7%  
**INERT INGREDIENT:** 67.3%  
\*Contains 3.18 lbs. active ingredient per gallon. TOTAL 100.0%

## KEEP OUT OF REACH OF CHILDREN **CAUTION**

### READ ENTIRE LABEL FOR PRECAUTIONARY STATEMENTS PRODUCT INFORMATION

**WOODFUME<sup>®</sup>** is a fungicidant solution. When used as directed, it will arrest internal decay, prevent rotting, and control carpenter ants and termites. During this sterilization of the treated area, a long-lasting residual is deposited on the wood surface. This residual is effective for a 12-month period.

Timber known to have internal decay should be scheduled for treatment before it has decayed to the point where replacement is necessary.

## DIRECTIONS FOR USE

### GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Large structural timbers have so many different end uses that the groundline area of a circumference standing pole is taken as a guide and example for application of this product.

For interior decay drill an adequate number of holes at a 45° angle downward to a length of approximately 2 1/2 times the radius of the wood. The first hole should be at the groundline and succeeding holes approximately 6-8" higher and 90° rotated from the next lower hole.

Inject equal amounts of the fungicidant into all holes. The amount of fungicidant to be used per pole is based on the pole circumference at groundline and in accordance with the table below.

Circumference	WOODFUME
22-39	1 pint
40-65	2 pints

For other types of structural members drill an adequate number of holes, sufficiently spaced and of sufficient dimensions to allow for proper distribution of product.

Plug holes with treated wood plugs, using the precautions of wearing safety goggles to avoid splashing any of the liquid into the eyes.

## STATEMENT OF PRACTICAL TREATMENT

**FIRST AID:** Immediately start the procedures given below and contact a Poison Center, a physician, or the nearest hospital. Do not induce vomiting unless directed to do so. Describe the victim's symptoms and follow the doctor's advice.

**IF ON SKIN:** Immediately flush skin with large amounts of running water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention immediately.

**IF IN EYES:** Immediately flush eyes with large amounts of running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eye and lids with water. Get medical attention immediately.

**IF INHALED:** Remove to fresh air. If not breathing, clear the airway and start mouth to mouth artificial respiration. If breathing is difficult, give oxygen, preferably with a physician's advice. Get medical attention immediately.

**IF SWALLOWED:** Immediately give several glasses of water. Do not induce vomiting. If vomiting does occur, give fluids again. Have a physician determine if continuation of patient will permit a safe and vomiting procedure. Do not induce vomiting anything by mouth by an unconscious or convulsing person.

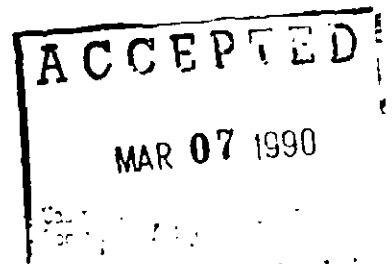

## NOTICE—READ CAREFULLY

**CONDITIONS OF SALE:** Osmose offers this product for sale subject to the conditions and all users are deemed to have accepted the following conditions of sale and warranty which may only be varied by written agreement of a duly authorized representative of Osmose.

**WARRANTY LIMITATION:** Osmose warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes related to the directions for use on the label. Subject to the inherent risks related to the use of Osmose, Osmose makes no other express warranties. THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY and there are no warranties, whether written or oral, that are not on the label hereof.

**INHERENT RISKS:** The directions for use of this product are intended to be read and should be followed carefully. It warns of the inherent risks of using a toxic material with use. Buyer assumes all risks associated with the application of this product, including the inherent risks of using a toxic material, whether written or oral.

**LIMITATION OF LIABILITY:** To the extent permitted by law, Osmose shall not be liable for any damages, including consequential damages, resulting from the use of this product, whether written or oral, in excess of the amount of any net sales of the product to the user of the product, whether written or oral, at the time of purchase.
