

DESCRIPTION

TimberLife®-D contains recognized salt preservatives used successfully in the art of wood preservation for more than forty (40) years. These colorless salts penetrate deeply into the wood and give long lasting protection against decay.

TimberLife®-D is designed for use in groundline treatment of standing poles, piling and other timber members.

INSTRUCTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Smooth even consistency. Remove existing decay as thoroughly as possible. Apply with ordinary stiff bristle brush (preferably long handle) in a zone 18" below to 3" above ground, making liberal applications to checks in areas where decay has been removed. Where treated area comes in contact with the ground, wrap with our waterproof bandage, OsmoShield™.

STORAGE AND DISPOSAL

STORAGE:

Do not contaminate water, food or feed by storage or disposal.

DISPOSAL:

Triple rinse (or equivalent). Puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

If product is in metal container, do not attempt to recycle, reuse, or incinerate. Triple rinse (or equivalent).

Puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PESTICIDE DISPOSAL:

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

RESTRICTED USE PESTICIDE

For retail sale to and use only by Certified Applicators or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

GROUNDLINE TREATMENT FOR ALL STANDING POLES

TimberLife®-D WOOD PRESERVING COMPOUND

ACTIVE INGREDIENTS:

Sodium Fluoride	44.42%
Creosote (P-7)	45.62%
Potassium Bichromate	3.10%

Total 93.14%

INERT INGREDIENTS 6.86%

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching the back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air. Apply respiration if indicated. Call a physician immediately.

IF ON SKIN: Remove contaminated clothing and wash affected area with soap and water. Get medical attention.

IF IN EYES: Flush eyes with plenty of water. Call a physician immediately.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMAL

DANGER: May be fatal if swallowed, inhaled, or absorbed through the skin. Causes eye skin irritation. Do not breathe vapor or mist. Do not get in eyes, on skin, or on clothing. May cause severe burns. Wash thoroughly before eating or smoking. Do not take internally. Use with adequate ventilation. Applicators must wear gloves impervious to wood treatment formulations (e.g., polyvinyl chloride [PVC], or neoprene in all situations where dermal contact is expected (e.g., during the actual application process when handling freshly treated wood).

Applicators must wear long sleeved shirts, pants, and an impermeable apron during application and mixing processes and all situations where dermal contact is expected.

Work clothing must be changed when it shows signs of contamination. Launder work clothes separately from other household laundry. Dispose of worn-out work clothing and shoes or boots in any general landfill, trash, or in any other manner approved for pesticide disposal.

Applicators must not eat, drink, or use tobacco products during those parts of the application process that may expose them to the treatment formulation.

Wash thoroughly after skin contact, and after eating, drinking, use of tobacco products, or using restrooms.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless this product is specifically permitted and addressed in an NPDES permit. Do not discharge effluent to sewer systems without previously notifying the sewage treatment authority. For guidance, contact your State Board or Regional office of the EPA.

Do not apply directly to water. Do not apply to areas where runoff is likely to occur. Do not contaminate water when disposing of equipment washwater.
