

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

WARNING:

May be fatal if swallowed. Do not breathe vapors. Do not get in eyes, on skin, or on clothing. Applicators must wear rubber gloves in all situations where dermal contact is expected.

Applicators must not eat, drink, or use tobacco products during those parts of the application process that may expose them to the wood treatment formulation.

Wash thoroughly after skin contact, and before eating, drinking, use of tobacco products, or using restrooms.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

STORAGE AND DISPOSAL

STORAGE: Store in a cool place. Avoid excessive heat.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site, or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag. Then dispose of by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**Osmose
FLURODS™**

This product is for commercial purposes only.
Not for household use.

ACTIVE INGREDIENTS:

Sodium Fluoride 92.6%

INERT INGREDIENTS: 7.4%

Total 100.0%

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID

If inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.
If on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If swallowed	Call poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

EPA Est. No. 3008-NY-1

EPA Reg. No. 300d-63

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FLURODS are recommended for the remedial treatment of wood products (poles, posts, timbers, crossties, etc.) to arrest internal decay. FLURODS preservative cartridges are inserted into holes drilled into those parts of the wood structure susceptible to decay.

The dosage of FLURODS is depended on the volume of wood to be treated. The recommended minimum dosage is 39.2 grams per cubic foot of wood to be protected.

Drill a hole or holes that will accommodate the number of FLURODS needed. After insertion of the FLURODS, cap with a wood or plastic plug, or seal with a filler such as putty. The moisture which is typically present in decay susceptible wood dissolves the sodium fluoride active ingredient in FLURODS which then diffuses into the wood.

**PHYSICAL OR
CHEMICAL HAZARDS**

Do not use or store near heat or open flame.

NOTE

Small amount of sodium fluoride is released during application of the product. This release is not considered a hazard to humans or the environment. The product is not flammable, non-toxic, and does not contain any hazardous materials.
