

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

3008-122

Date of Issuance:

3/18/2020

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

CU-89-RTU II™

Name and Address of Registrant (include ZIP Code):

Leigh Ann Richardson
Koppers Performance Chemicals, Inc.
1016 Everee Inn Road
Griffin, GA 30224

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby reregistered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on her/his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received a label amendment submitted on March 12, 2020. EPA grants this request under the authority of section 3(c)(5) of FIFRA, as amended. With this accepted labeling, all requirements set forth in the Reregistration Eligibility Decision for Naphthenate Salts and Naphthenate Salts Registration Review Interim Decision have been satisfied. Therefore, EPA reregisters the product listed above. This action is taken under the authority of section 4(g)(2)(c) of FIFRA, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Signature of Approving Official:

Jacqueline Hardy, Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (7510P)
Office of Pesticide Programs

Date:

3/18/2020

Submit one (1) copy of final printed labeling. Amended labeling will supersede all previously accepted labels. A copy of your label stamped "Accepted" is enclosed for your records. Products shipped after 12 months from the date of this Notice or the next printing of your label, whichever occurs first, must bear the new revised label.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 09/19/2014
- Alternate CSF 2 dated 9/19/2014

If you have any questions, please contact Srinivas Gowda by phone at (703) 308-6354, or via email at gowda.srinivas@epa.gov.

Enclosure: Label stamped "Accepted"

CU-89-RTU II™

Copper Naphthenate (2% copper as metal)
COPPER FUNGICIDE - INSECTICIDE FOR WOOD
PREVENTS WOOD DECAY - TERMITES, MILDEW
FOR USE ON POLES AND POLETOPS, BORE HOLES, POSTS,
BEAMS, LUMBER, BRIDGE AND MINE TIMBERS AND PILING
For Exterior Use Only

ACTIVE INGREDIENT:
Copper naphthenate* 17.00%
OTHER INGREDIENT: 83.00%
TOTAL 100.00%

*Equivalent to 2% metallic copper

CONTAINS PETROLEUM DISTILLATES

KEEP OUT OF REACH OF CHILDREN

WARNING

See other precautionary statements on side panel.

FIRST AID

If on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If swallowed	Call poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.	
Note to Physician: Contains petroleum distillates. Vomiting may cause aspiration pneumonia.

NET CONTENTS: 16 Fluid Ounces
 5 Gallons
 55 Gallons

Batch Number: _____

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING. Causes skin irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear long-sleeved shirt and long pants, socks and shoes, and chemical-resistant gloves (such as those made from Barrier Laminate, Nitrile Rubber, Neoprene Rubber, or Viton, Selection Category E).

USER SAFETY RECOMMENDATIONS: User must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User must remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users must remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to aquatic invertebrates, shrimp, and oysters/clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Wood treated with copper naphthenate shall not be used in the construction of beehives.

PHYSICAL OR CHEMICAL HAZARDS: COMBUSTIBLE. Apply this product only as specified on label. Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation. Close container after each use.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Wood Preservation: For the control of fungal rot and decay, mold and mildew, moss, termites (including Formosan termites) and other wood destroying insects in wood products.

APPLICATION SITE: CU-89-RTU II is only intended for use on exterior wood. Do not apply to food or feed contact surfaces. Do not contaminate drinking water with treated articles. CU-89-RTU II provides protection against moisture, rot and mildew on any natural wood surface. This product will preserve, protect and seal wood surfaces that will be in contact with soil, water or concrete. The copper naphthenate gives a green cast to CU-89-RTU II. This product is not intended for use as a stain. The green color will fade within a few months when exposed to sunlight. Oil or alkyd stains or paints can be applied over CU-89-RTU II after overnight dry, but the green may bleed through lighter colors. Do not over coat CU-89-RTU II with latex paint or clear finishes until thoroughly cured (6 to 12 months). Application of this product may produce a strong, lingering unpleasant odor.

PREPARATION: Wood must be clean, dry and seasoned.

APPLICATION METHODS: This product is ready to use. Do not dilute. Apply CU-89-RTU II liberally by brush, roller, total immersion, surface flooding or internal injection under pressure for the prevention and control of fungal decay organisms. Do not apply with an airless sprayer, by spray, or by fine mist.

Dipping- Dip wood for 3 to 30 minutes per inch of thickness. Fence posts, piles, poles, foundation timber and heavy wooden members must be free of bark, dry, and well-seasoned and immersed in the product for a period of 12 to 48 hours to be an effective wood preserver. The application rate of wood treated with copper naphthenate in a dip tank shall not exceed 25%.

Internal Treatment- To internally treat previously treated utility poles or other foundation timbers apply CU-89-RTU II solution to interior cavity of wood structure through prepared openings using air or mechanical pressure pump. Apply 1 gallon or to refusal.

Brush or roller- Use one coat on materials to be finished with paint or stain. If no finish is to be used, apply two liberal coats within the hour. Thoroughly cover ends. The more preservative absorbed by the wood, the longer and more effective the protection. Clean painting equipment with mineral spirits for quick clean up. Coverage: One gallon will treat approximately 200-300 square feet.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store at temperature between 0°F and 120°F. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbant, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store product in the original container only. Keep container closed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from use of this product must be disposed of according to state and local regulations. Do not contaminate water, food, or feed by storage and disposal.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
