

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

3008-133

Date of Issuance:

12/22/21

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

InPro DCOI Preservative

Name and Address of Registrant (include ZIP Code):

LeighAnn Richardson
 Koppers Performance Chemicals
 1016 Everee Inn Road
 Griffin, GA 30224

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3c7A. You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

f/Lorena Rivas, Acting Product Manager 34
 Regulatory Branch Management II
 Antimicrobials Division (7510P)

Date:

12/22/21

2. You are required to comply with the data requirements described in the DCI Order identified below:
 - a. 4,5-Dichloro-2-n-octyl-3(2H)-isothiazolone GDCI-128101-1482

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI Order listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
4. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 3008-133.”
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/01/2021

If you have any questions, please contact Stacey Grigsby via phone at 202.566.0821, or via email at grigsby.stacey@epa.gov .

InPro DCOI Preservative

ANTIMICROBIAL

Active Ingredient:

4,5-Dichloro-2-n-octyl-3(2H)-isothiazolone 98.5%

Other Ingredients: 1.5%

Total: 100.0%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For general information on product use, etc., call the National Pesticides Information Center at 1-800-858-7378. In case of an emergency, call CHEMTREC toll free at 1-800-424-9300. You may also contact the poison control center at 1-800-222-1222 for emergency medical treatment information.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be necessary.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

EPA Reg. No. 3008-XXX EPA Est. No. XXXXX-XX-XX

Manufactured [by][for]:

Koppers Performance Chemicals Inc.

Griffin, GA 30224

NET CONTENTS: _____

BATCH NO.: _____

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER. Corrosive. Causes eye damage and skin burns. May be fatal if inhaled. Harmful or fatal if swallowed. Fatal if absorbed through the skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Do not breathe dust, mist or vapors. Avoid contamination of food. Do not take internally. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) Permit and the Permitting Authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use as a wood preservative to protect treated wood from fungi, mold, and mildew. This product is a concentrate and must be mixed with a solvent(s) such as, benzyl alcohol, fuel oil, mineral spirits, diesel, petroleum distillates or other suitable solvent that can solubilize InPro DCOI Preservative prior to use. Additionally, water, emulsifiers/surfactants, polymeric resin, and/or wax emulsion may be used in preparing the treating solution.

PRESSURE TREATMENT

Use InPro DCOI Preservative in the pressure treatment of above ground wood applications such as decking, fencing, fence posts, rails, spindles, flooring, joists, trellises, gazebos, millwork and joinery, trim, and fascia. Mix InPro DCOI Preservative with water to obtain 500 ppm to 1200 ppm DCOIT in the final treatment solution. For example, to prepare an 850 ppm DCOIT treatment solution, combine 7.14 lbs. of InPro DCOI Preservative with enough water to make a 1,000 gallon solution. A retention level in the range 0.01 - 0.04 pounds per cubic foot (pcf) DCOIT in the wood is required for all the above treatments.

This product may also be used to pressure treat wood intended for in-ground wood applications or use as utility poles, distribution poles, cross arms or transportation (road or rail) bridge timbers. Mix InPro DCOI Preservative with a solvent such as benzyl alcohol, fuel oil, mineral spirits, diesel, petroleum distillates, or other suitable solvent to obtain 1.0% to 4.0% DCOIT in the final treatment solution. For example, to prepare a 3% DCOIT treatment solution, combine 226 lbs. of InPro DCOI Preservative with enough solvent to make a 1,000 gallon solution. A retention level in the range 0.1 - 0.33 pounds per cubic foot (pcf) DCOIT in the wood is required for all the above treatments.

POST TREATMENT HANDLING: Treated lumber and plywood shall be free from dripping before leaving the drip pad.

NOTE: This product cannot be used to treat wood intended for direct continuous saltwater immersion. Wood treated with this product must not be used for packaging food or feed or in the manufacture of beehives.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal, or cleaning of equipment.

PESTICIDE STORAGE: This product is corrosive to mild steel. Do not store or transport in unlined metal containers. Keep product from freezing.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
