## KILZEM ROACH KILLER

ACTIVE INGREDIENTS

|   |      |
|---|------|
| 0,0-dimethyl 0-(2-isopropyl-6-methyl-pyrimidin-4-yl) phosphorothioate | 100% |
| Aromatic petroleum distillate solvent                                 | 100% |

### DIRECTIONS

May be sprayed directly on roach infestation or painted on with brush or roller. Spray heavily in all cracks, crevices, drains, base boards and other infested areas where roach nests may be. Kilzem roach killer is also effective against waterbugs, cockroaches, crickets, flies, mosquitoes, wasps and flying ants on outside surfaces of screens, doors, window panes and wherever these insects may be harbored. Lightly spray porches, patios and other places where these insects alight on surfaces.

### CAUTION: KEEP OUT OF REACH OF CHILDREN

Keep out of reach of children. Do not breathe treated air. Do not eat, drink, or swallow. Do not spray in mist or repeat coating. This is a household insecticide. All household surfaces should be treated. Do not spray on food or food containers. Do not spray on children's clothing.
