

[3050-2]

A Superior Food Processing Plant Insecticide EPA: Reg. No. 3050-2

DIRECTIONS

- FRUIT FLIES, FLIES and MOSQUITOES.** Close all doors and windows. Direct spray at walls and fill room with fog. Keep room closed for 10 to 20 minutes, sweep up and destroy flying insects. During fly season, daily spraying may be necessary.
- ROACHES, SILVERFISH and WATER BUGS.** Spray thoroughly into all cracks, moldings and crevices where insects appear. Particularly watch areas where moisture collects such as drains, sinks and water pipes. Whenever possible spray on insects as they emerge from hiding places. Repeat application as necessary.
- ANTS.** Spray directly into nests, along ways, and directly on all ants observed. Repeat as frequently as necessary.

- FLEAS.** Spray thoroughly into cracks and crevices where fleas hide. Repeat application as necessary.
- CRACKS AND CREVICES.** Spray thoroughly into all cracks, moldings and crevices where insects appear. Particularly watch areas where moisture collects such as drains, sinks and water pipes. Whenever possible spray on insects as they emerge from hiding places. Repeat application as necessary.
