

DURA FRESH  
D 510  
For Industrial Use Only

Active Ingredients: 50%  
Ziram (Zinc Salt of Dimethylthiocarbamate) 46%  
Zinc Salt of 2-Mercaptobenzothiazole 4%  
Inert Ingredients: 50%  
100%

Net Contents: lbs.

Use: Impregnation of bonded cellulose sheeting used in the fabrication of belts, luggage, handbags, briefcases.

Caution: May be harmful if swallowed or inhaled. May cause irritation of nose, eyes, throat and skin. Avoid contact with eyes, skin or clothing. Avoid breathing dust or spray mist. In case of contact, flush with plenty of water. For eyes, get medical attention.

Directions for Use:

Deposit 0.25% Dura Fresh D 510 (as received) based on the dry weight of product by passing the sheet through the solution and then squeeze rolls. This may be accomplished by first determining the wet pickup of the material being treated and then adding the appropriate amount of D 510 to the pad bath so as to result in a deposition of 2-1/2 pounds (as received) per 1000 pounds of material being treated.
