OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

OCT 13 2010

Attention: Stewart Klein
President

Subject: Amendment-Revised label as per EPA letter dated July 20, 2010
EPA Reg. 3090-226
Amendment Dated September 9, 2010

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. The Agency approves the following changes made to the label:

- The addition of the emergency information under the heading First Aid.
- The addition of the term "gastric."
- The revision of the registration number to read "3090-226."
- The addition of the phrases under the Precautionary Statements pertaining to the spray mist, PPE, chewing gum, and using the toilet.
- The additions made on page two to the Directions for Use.

A stamped copy of the accepted labeling is enclosed. Submit three copies of your final printed labeling to the Agency before distributing or selling the product bearing the revised labeling.

If you have any questions concerning this letter, please contact Abigail Downs at (703) 305-5259.

Sincerely,

A handwritten signature in black ink that reads "M Swindell".

Marshall Swindell
Product Manager (33)
Regulatory Management Branch I
Antimicrobials Division (7510P)

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

Danger. Corrosive. Causes irreversible eye damage. Do not get in eyes or on clothing. May be fatal if swallowed or inhaled. Do not breathe vapor or spray mist. Harmful if absorbed through the skin. Wear protective eyewear (goggles, face shield or safety glasses). Wear protective clothing and rubber gloves. Wear a respirator with an organic-vapor removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C), or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G) or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with an N, R, P or HE prefilter. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited

STORAGE INSTRUCTIONS

Store in original containers and place in locked storage area. Keep from freezing. Moisture sensitive. Keep container closed until ready for use and after use.

SPILL OR LEAK PROCEDURES

Small spills may be mopped up or flushed away with water or absorbed on some absorbent material and incinerated.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA regional Office for guidance.

CONTAINER DISPOSAL

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse (or equivalent) empty container with water. Then offer for recycling or reconditioning. If not available, puncture and dispose of in a sanitary landfill.

STATEMENT OF PRACTICAL TREATMENT - FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency information on [product, use, etc] call the National Pesticides Information center at 1-800-858-7378, 6:30 AM to 4:30 PM Pacific Time (PT), seven days a week. During other times, call the poison control center at 1-800-222-1222.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage. Call 860-868-9491 for additional medical advice.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

- Do not use in the manufacture or treatment of items that may come in contact with food.
- Use only under an agreement with Sanitized Inc, New Preston, CT.
- Do not use for the production of health care products or products intended to decrease the transmission of disease (items regulated by the Food & Drug Administration)
- Finished products incorporating the above product may not make claims of antimicrobial activity that exceed what is permitted in PR Notice 2000-1

USE, BLENDING AND FORMULATING INSTRUCTIONS FOR THE LISTED MATERIALS

This product is an antimicrobial formulation designed to be incorporated into textile fibers and mixtures thereof at various stages of their manufacturing process to preserve the integrity of the manufactured materials. Manufactured material may be used in the following applications:

- Padding** The product can be applied at any usual pick-up ratio. Best results are obtained at a slightly acidic pH value. Sanitized® TH 27-24 is not sensitive to pH values, except when used in strong basic and acidic environments.
- Foaming** Sanitized® TH 27-24 is applied in the foaming bath according to the instructions for the foaming agent. In order to achieve a good penetration and a homogeneous finish on heavy and medium weight fabrics the application should be carried out on the fabric in humid state.
- Coating** Sanitized® TH 27-24 can be mixed in coating masses and thus be applied to the substrate. The influence on viscosity should be checked in pre-trials. The concentration should be chosen in relation to the dry weight of the coated textile.
- Drying / Curing** The thermal exposure during drying and curing should be minimized. Keep the drying time as short and the drying temperature as low as possible. Condensation is not necessary.
- Concentration** Depending on article end use, finish requirements and basic weight of flat fabric unit. The amount is relative to the dry weight of the textile to be treated.
Concentration related to the weight of flat fabric:
Padding Use concentration in g/l in relation to textile weight

Application [%]	Liquor pick-up [%]									
	40	50	60	70	80	90	100	110	120	
	g/l Bath concentration
