HAWK MOSQUITO COILS

HAWK MOSQUITO COILS

HAWK acts instantly as soon as it is lit. HAWK helps to repel mosquitoes in confined outdoor areas. It is useful in places where there is little or no breezes, such as patios and porches.

DIRECTIONS:

1. Bend the enclosed HAWK holder into an upright position.
2. Hold the comma-shaped end of one of the coils between two fingers as shown in the illustration. Shake it lightly over the palm of the other hand, and it will be easily separated.
3. Insert the upright tip of the holder into the hole at the center of the coil.
4. Light outer end of coil. When using extra holder place the lighted coil on a dish or other suitable receptacle.
5. Any broken piece of the HAWK coil may be used by inserting it into the open gap in the holder as illustrated.

ACTIVE INGREDIENTS	
ALLETHRINS (ALLYL HOMOLOG OF CINERIN II)	0.50
